Plastic Does Not Compost!

Don't put your yard waste in plastic bags, they are not accepted in the yard waste program. Plastic pots, flower markers or plant tags do not go in your yard waste. Plastic does not decompose and reduces the quality of the final compost product.

Instead, use only paper yard waste bags, or labelled, reusable, rigid containers with no lids. Yard waste labels for reusable containers are available at no charge from Halton Region.

Acceptable yard waste materials include yard and garden trimmings; pumpkins; fallen fruit from trees and tree trimmings.

Please "grasscycle" by leaving grass clippings on your lawn. Grass clippings are mostly water and will quickly decompose, releasing valuable nutrients back into the soil. Grasscycling does not cause thatch!

Brush must be tied in bundles no larger than 1.2 m (4 ft) by 0.6 m (2 ft) wide, with branches a maximum of 7.5 cm (3 inches in diameter).

Yard waste materials will be collected **every other week** on the same day as your Blue Box until December 7.
