**IT System Support**

An energetic, detail oriented, self-starter to maintain and develop Access databases, create reports utilizing Crystal Reports and conduct project research. This position will also be a backup for our IT Technical Assistant, providing end user support. This exciting position is based out of our Head Office in Georgetown; however, travel to other Sheridan locations within the GTA will be required.

**Accountabilities**

- Responsible for Microsoft Access database design, development, and implementation in a mixed SQL / ODBC environment
- Liaise with department management and end users to assess requirements for various systems
- Provide end-user training as necessary with regards to the effective and efficient use of database tools and resources
- Respond to and resolve database access and performance issues
- Develop automated database applications, where necessary, using the applicable database package
- Identify inefficiencies in existing databases
- Design custom reports using Crystal Reports 8.5 in a SQL environment
- Conduct research and gather information for various system projects, as assigned
- Design, repair, maintain and troubleshoot computer hardware and software as per Company standards

**Skills Required**

- Minimum 2 years database development (MS Access) experience
- Minimum 1 year experience using Crystal Reports
- Experience with MS SQL and ODBC an asset
- Extensive knowledge of Microsoft Software Applications (Outlook, Excel, Word, PowerPoint)
- Working knowledge of Visual Basic a definite asset
- Excellent communication skills
- Self-starter - ability to work independently and meet service objectives and deadlines
- Must have valid driver's license and reliable vehicle required
- Willingness to continue to develop skill set
- Server and Network experience an asset
