### Compound Sale Offers Unprecedented Deals on New Vehicles

May 23, 2008, Brampton: The Brampton Auto Mall unveiled its first ever compound sale, a unique sale event which offers deals the local public have not yet seen.

"Compound sales are typically held when we need to clear out our vehicle compound of vehicles to make room for incoming shipments," explained Andrew Delaware, Director of Communications for the auto mall. "It is imperative that we clear out as much inventory as possible, and as a result, the offers and incentives from the participating manufacturers are very exciting for anyone thinking of purchasing a vehicle."

The resulting offers from the Compound Sale could make this the best weekend for vehicle shopping Brampton has ever seen. With all the participating dealers under one roof competing for your business, driving away with the best deal on your vehicle of choice will be efficient and enjoyable.

Brampton's favourite brands will be represented at the sale, with factory-authorized financing, incentives, and specials. A temporary compound has been set up at the corner of Bovaird and Van Kirk Drive, at the entrance to the auto mall, to make the

sale more accessible and enjoyable. A barbeque, kids play area, and live DJ will add to the excitement of the event.

"The car buying public has every reason to be excited about this particular sale," quoted Asgar Molu, representing Nissan at the sale. "We expect huge turnout from all of the GTA given the deals and special promotions this weekend - but for local Brampton residents, what a treat to have a sale like this in their own backyard!"

The Compound Sale is open to the public from 9AM to 9PM, and runs from Thursday to Saturday.
