HALTON HILLS
Working Together Working for You!

PUBLIC INFORMATION CENTRE

TOLTON PROPERTY - LIMEHOUSE

The public is invited to attend an information session regarding the recent acquisition of the Tolton Property at 11134 22 Side Road, Limehouse. The 0.93 ha (2.28 acre) property is located on the Niagara Escarpment and is of heritage and environmental interest.

The purpose of the meeting will be to outline the current status of the property and salvage operation, and to seek input on the potential redevelopment options for the site.

Senior Jaguars still have sights set on regional final

Continued from pg. 15

Christ the King, 6-0-2 during the regular season, faced 3-4-1 White Oaks yesterday (Tuesday) and if victorious would face either Holy Trinity or Abbey Park in Thursday's AAAA regional championship game in Milton.

Acton's senior girls took on 5-0-0 St. Thomas Aquinas yesterday in the Halton A/AA final four.

Softball

Tuesday's Halton girls' semifinal games were postponed due to rain so Ctk's Jaguars will have to wait until today (Wednesday) to face Holy Trinity in Oakville.

With a victory today, the Jags, who beat Notre Dame 15-8 in the opening round of playoffs last Thursday, will face either T.A. Blakelock or Iroquois Ridge in Thursday's final.

Baseball

Both Georgetown and Christ the King were eliminated by Burlington schools at the quarterfinal stage of the Halton boys' post-season this past Thursday.

The Rebels dropped a 3-0 decision to M.M. Robinson, while the Jaguars lost 12-2 to unbeaten Notre Dame.

... Lend Me Your Ears

SECOND HAND SMOKE INCREASES EAR INFECTIONS IN CHILDREN

Ear infections are the Number One reason young children visit their doctors and take antibiotics. A new study finds many of those infections could be avoided if parents who smoke would make one important change.

A recent study in the archives of pediatric and adolescent medicine is giving parents another reason to quit. It finds exposure to cigarette smoke in the home increases children's risk of middle ear infections. The smoke inflames the tissues of the middle ear so that viruses and bacteria can invade more easily and cause infection.

Where Child Abuse Hurts Most

Sometimes the worst scars of child abuse can't be seen. Whether physical or emotional, abuse attacks a child's self-esteem and emotional development, leaving long-term emotional trauma and pain. You can help prevent child abuse by being a nurturing parent or caregiver. By letting children know they are special, competent and loved, you can help them develop positive self-images and happier futures.

If you feel overwhelmed, angry or frustrated as a parent, help is out there for you. Look in your area for support groups and services, or talk to a trusted friend, family member, pastor or doctor about what you can do to protect and support your child. If we all do our part to prevent child abuse, we'll get to the heart of the matter.

Congratulations **Heather** on graduating with Honours from the University of Guelph with a Bachelor of Science degree in Human Kinetics.

We are very proud of you.
Love Mom & Dad & Your Family
