## OEB issues decision

# Gas pipeline for generating station gets okay

The Ontario Energy Board Monday issued a Decision and Order granting Union Gas Limited leave to construct 4.5 kilometres of natural gas pipeline and ancillary facilities in the Towns of Halton Hills and Milton, to supply natural gas to the Halton Hills Generating Station currently being constructed by TransCanada Energy Ltd.

The proposed pipeline will originate from a tie-in on Union's Dawn/Trafalgar Transmission line at Fifth Line and extend along Fifth Line and Highway 401 to the Halton Hills generating station near the intersection of Highway 401 and

Sixth Line.

In its decision the Board noted:

- The proposed pipeline is needed to supply natural gas to the Halton Hills Generating Station;
- The proposed project is the best alternative to supply natural gas to the Halton Hills Generating Station;
- Union's commitment to ensure the recommendations of the Route Selection, Environmental and Socio-Economic Impact Assessment, and all conditions of approval are followed;
- The consultation process Union followed to identify to consult with Aboriginal Peoples groups who may be affected by the proposed pipeline,

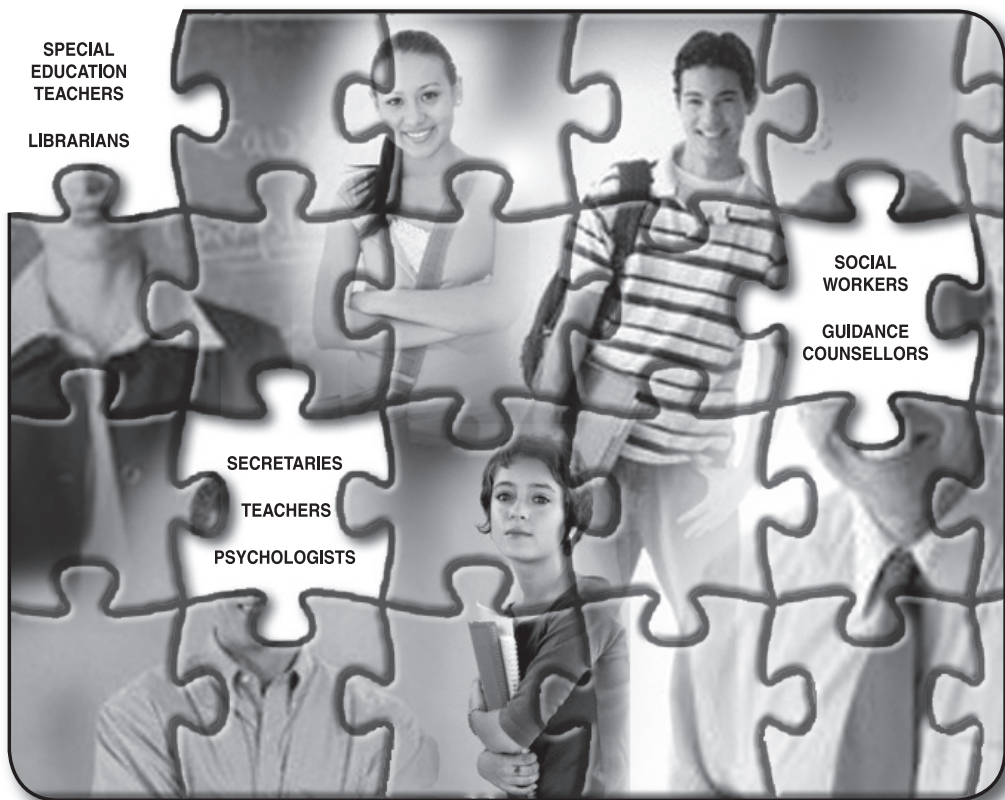

was appropriate and complete; and

The project is economically feasible.

Based on the evidence provided and the above findings, the Board determined the project is in the public interest.

The Ontario Energy Board regulates the province's electricity and natural gas sectors in the public interest.

For more information on the Board, please visit their web site at [www.oeb.gov.on.ca](http://www.oeb.gov.on.ca) or contact the Consumer Relations Centre at 416-314-2455 or toll-free at 1-877-632-2727.

## What keeps our students safe and successful?

We all know our schools have problems. Many students don't feel safe. Many have academic and behavioural issues that make it hard to be successful.

But we also know the solution.

The more secretaries, custodians and educational assistants keeping an eye out for trouble, the safer our schools will be.

The more teachers, counsellors and professional staff providing one-on-one attention, the more successful our students will be.

It's no puzzle. When it comes to investing in our schools, it makes sense to invest in people.

Visit [ontariostudentsfirst.ca](http://ontariostudentsfirst.ca) for more ways we can make schools safe and successful.
