Carpet One goes green

Keeping with the trend to offer 'green' products, Carpet One at 26 Guelph St. in Georgetown carries a full line of natural products that are created from renewable resources. Carpet One staff (from left) Sue Lindsay, Jamie Watt and Betty McFarlane display the many flooring products made from cork, bamboo and wool, which are now available to the home decorator. Green products not only give homes an attractive look, but also are kind to the environment in the process.
