## ... Lend Me Your Ears

### COUNSELLING THE NEW HEARING AID USER

The following few tips, if followed correctly, will prolong the benefits and enjoyment of better hearing:

- Do not get the hearing aid wet
- Do not leave the instrument where it is too hot or cold
- Try not to drop the hearing aid
- Do not spray cleaning solution or hair spray on the instrument
- Keep the instrument and batteries out of the reach of small children and especially pets

If any of the above problems do occur, please don't hesitate to call...

## Tooth Chatter

### "HAD A FALLING OUT?"

If a tooth is lost it's important to replace it with an artificial one to prevent your other teeth from drifting out of line. These neighbouring teeth can become more susceptible to decay and gum disease. Tooth misalignment can also cause jaw problems.

These are four main types of artificial teeth. Each is designed to solve a specific problem.

- A removal partial denture
- Complete or full dentures
- A fixed partial denture or fixed bridge

Be sure to carefully consider which dental prosthesis is right for you. You do not need a referral; simply call our office direct for an appointment. Consultations are complimentary.
