Don't Be Late

Put your waste at the curb by 7 a.m. the morning of your collection day, but no sooner than 5 p.m. the evening before.

Collection times can vary from week to week due to route changes, weather conditions and equipment maintenance.

Collection Tips

- Don't be late. Put waste at the curb by 7 a.m. the morning of your collection day, but no sooner than 5 p.m. the evening before.
- Keep the weight down. Containers and bags should weigh no more than 23 kg (50 lbs). Items that are too heavy will not be collected. Do not put material out in cardboard boxes.
- Plastic bags don't go in the Blue Box. Don't use plastic bags for your recyclable materials.
- Cardboard boxes are not accepted as garbage or yard waste containers. Please flatten cardboard and tie it in bundles no larger than 90 cm x 90 cm x 30 cm (3 ft x 3 ft x 1 ft) and place beside your Blue Box.
- Do not place your Kitchen Catcher or compostable bags at the curb; the Kitchen Catcher is more likely to blow away in the wind and compostable bags may leak or break apart, they are only meant as liners. Only put your GreenCart at the curb.
- Residents can place a maximum of three large items at the curb on their scheduled bulk day.

23 kg (50 lbs)

Make Collection Easier

- **Squish it!** Squish aluminum pop cans, plastic pop and water bottles, beverage cartons and Tetra Paks.
- **Flatten it!** Flatten box board before placing inside your Blue Box.
- **Tie it!** Tie corrugated cardboard in bundles no larger than 90 cm x 90 cm x 30 cm (3 ft x 3 ft x 1 ft) and place beside your Blue Box.
- **Secure it!** Stack your Blue Boxes and place heavier items such as phone books and magazines on top of loose containers.

Remember, put your waste at the curb by 7 a.m. the morning of your collection day.

Monitoring Halton's beach water for a healthier summer

To help Halton residents have an active and healthy summer, the Halton Region Health Department tests water quality at recreational beaches in Halton. Beaches are tested from the first week in June until the first week of September. Beaches are selected for testing based on their use for swimming and other water sports. Samples are taken at least once a week at all selected beaches. More samples may be taken if conditions change.

Before heading to the beach, call Access Halton for information about the water quality at Halton's beaches. Beach monitoring information is available 24 hours a day by calling either 311 for government services, 905-825-6000 or toll free 1-866-442-5866. During regular business hours, ask for beach information; after regular business hours, press "2" for health information. This information is also posted on the Region's website at www.halton.ca/health.
