DISCOVER YOUR DENTURIST DENTURISTS SERVE YOU DIRECTLY

For many years Denturists have been licensed to DIRECTLY offer you a full range of denture services at a cost that puts dentures within the reach of more people. We are the only profession spending 100% of our day specializing in the fabrication of dentures and counselling of denture patients. A popular MISCONCEPTION is that we work for dentists. Dental labs do work for dentists. Denturists work independently and do their own denture lab work, for their own patients. So if you didn't come to our office, then we didn't make or fix your dentures.

CONSULTATIONS ARE ALWAYS FREE

If your dentures are loose, bothersome or damaged; fear not. Our office will help you examine your options. We do not charge for consultations.

You do not need a referral; simply call our office direct to make an appointment.

Creating confident smiles since 1982.

... Lend Me Your Ears

LIVING WITH A LOSS OF HEARING

Some voices are easier to understand than others. The clearly speaking person produces words that are more precisely formed, or articulated. The rate of speed of words spoken also affects our ability to understand.

If one can hear the speaker as he/she is talking, this makes it easier to understand. The environment also has an affect on speech understanding — bare walls and floors in a room causes sound to "bounce" around. Keep in mind that it is much easier to converse in a quiet, carpeted room.

Make sure that there is good lighting and try to maintain a speaking distance of less than nine feet. You'll be pleasantly surprised at how much easier conversation is.

Hearing loss can dampen enjoyment of movies, music, church services, watching TV, eating out and talking on the telephone. Even a mild hearing loss can reduce your quality of life.
