

# Is there a way to make taxes pay off?

**How does the average taxpayer cut through the confusion of complex tax laws?**

Filling out the proper tax forms without making mistakes is tricky enough. A taxpayer must also be careful to manage money year-round while being constantly vigilant for news of current, ever-changing regulations. How do Canadians make use of all the laws that were designed to give them a break? Many turn to tax professionals.

**You could become a professional tax preparer.**

If you like to work with numbers and enjoy helping people, you may find tax preparation is just what you're looking for. As a qualified tax preparer, you'll enjoy the challenge and satisfaction of helping people save money on their taxes.

**CHANGES AND ADJUSTMENTS**

It may be necessary from time to time to have changes or adjustments made to your hearing aids or molds.

Your hearing can change slightly; you can gain or lose weight; develop circulation problems; develop an allergy...the list is long.

Hearing Instrument Practitioners will want to see you on a regular basis to ensure you are receiving maximum benefit from your aids. No problem is "too small" to have checked. Your hearing is too precious not to receive the best possible attention.
