Lapointe bows out in first round at match play tournament

Looking to put some icing on what's been an excellent 2007 season for Georgetown's Mary Ann Lapointe, the recent Canadian Golf Hall of Fame inductee was eliminated from the recent U.S. Women's Mid-Amateur Championship in the first round of match play.

Lapointe completed the 36 holes of stroke play in a tie for 14th spot with rounds of 81 and 75 to qualify for the match play bracket of 64 players. She was edged out in her first match by Lecia of Alexander of Texas 1 up.

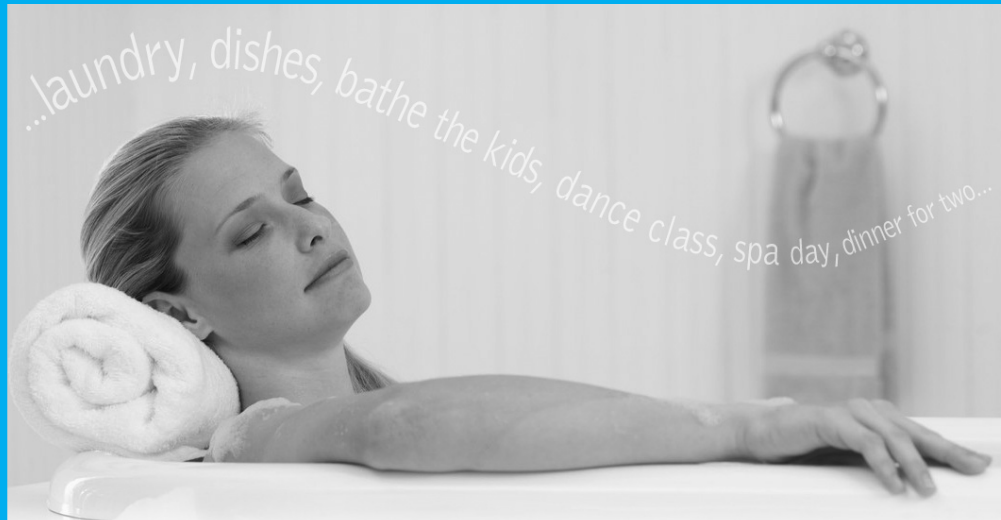

In 2005, Lapointe became the first non-American to win that title.

...

Freshman Andrew Albrecht of Georgetown placed 14th for the University of Massachusetts Lowell varsity golf squad after firing rounds of 74-80 in the Adelphi Invitational earlier this week at Tailgrass Country Club in Shoreham, N.Y.

The Christ the King graduate helped the River Hawks finish in a tie for fourth in the team standings.

She works twice as fast as everyone else...

So does her natural gas water heater.

A smart home uses natural gas – not electricity – to heat water. Why is natural gas the smart choice? That's easy. A natural gas water heater:

- Is fast. Natural gas delivers twice as much hot water in the same time as an electric water heater
- Saves over 40%* on your water heating energy bill which adds up to over \$2,400 over your water heater's lifetime
- Reduces the load on Ontario's electric grid

Visit uniongas.com/waterheaters and we'll get you started on saving money, using less energy and enjoying tubs of comforting hot water because a natural gas water heater is...

Twice as Fast.
Half the Cost.
