HALTON TIRE CENTRE

"More Than Just Tires"

68 Main St. N., Unit A, Georgetown 905-877-5110
(Moore Park Plaza) www.haltontirecentre.com

Canadians know a thing or two about winter: it's cold; in many areas it's snowy; and driving can be treacherous.

Most all-season tires are made of a harder rubber that may easily break traction with the road when it is cold. However, the rubber compound used in winter tires stays soft in the cold, and the unique tread design has a better grip on the pavement no matter what the temperature is outside. When snow or black ice covers the road, a winter tire will provide better traction, will be much safer, and bring renewed confidence to your driving experience.

Whether it's winter, all-season or performance tires, the specialists at **Halton Tire Centre** will guide your choice and help you understand why a certain tire best meets your needs. They offer such brands as Firestone, Bridgestone, Goodyear, Yokohama, Toyo, Cooper, Nexxus, Maxxis, etc.

Halton Tire Centre also has winter rims, plus cool custom wheels to make your ride one-of-a-kind.

Halton Tire Centre has qualified technicians who can provide complete vehicle service and factory scheduled maintenance. They offer tune-ups, brake and exhaust work, shocks & struts, oil changes with 20 point inspection, air conditioning service, wheel alignment, transmission service, MTO Safety Inspections, and Ontario Drive Clean Repair Services.

As a Tech-Net Professional Auto Service member, they use quality CARQUEST Auto parts that meet or exceed the manufacturer's recommended specifications, backed by a North American warranty.

The goal of **Ray, Mike, Jason, Trevor, Ryan** and **Marilyn**, your team at this family run business, is to provide competitive prices and service you can count on. A waiting lounge is available. Call for your appointment.

Whether it's retired seniors or families who want to spend quality time together, an increasing number of Canadians seem to be choosing RV travel as part of their lifestyle. It's a more leisurely way to travel, saves on food and accommodation expenses, and when your trip is over, you still have your RV to use again or resell. Most RVs sold at **Georgetown RV** head out in the summer to explore Ontario, but travelling in a recreational vehicle is increasingly becoming a winter event with lots of vacation opportunities in the south. Others prefer the convenience of parking their RV in a trailer park for the season as a home away from home.

Over the past few decades, the trailers have evolved into comfortable homes on wheels. They are more spacious, luxury amenities are commonplace, and the designs are more durable yet more lightweight. Taking a walk through an upscale model at **Georgetown RV** is a bit like walking through a small house. The built-in kitchen has a refrigerator and stove, microwave and quality cabinetry. No more struggling to cook over a naphtha stove for these travelers.

Owner **René Stonebrink** and his wife **Pat** and the staff at **Georgetown RV** have the experience to determine a customer's needs and suggest the ideal travel trailer, fifth wheel or hardtop tent trailer. Look to such brands as Palomino, Salem and the new line of SunValley mini-van towable RVs. Many used models are often available, and trade-ins or consignments are welcome.

Customer support includes a large selection of parts and accessories, trailer hitches & towing products, plus installations & expert repairs for all RVs. Ask about tent trailer rentals.
