

Jaguars ousted

Punt returner Grey Nyhoff of Christ the King's Jaguars did well just to catch the ball cleanly in slippery conditions during a first-round Halton junior football post-season contest Tuesday in Georgetown against a tough Lester B. Pearson side. The visitors scored a touchdown late in the first half and then clinched the outcome with a fourth-quarter major to eliminate the junior Jags from the post-season with a 15-0 triumph. Georgetown's junior Rebels also had their season come to an end after a 21-7 loss to St. Thomas Aquinas in Oakville on Tuesday. Today (Friday) is a big day for both CtK's senior Jaguars and the GDHS Rebels. Georgetown's seniors host St. Thomas Aquinas at 2:30 p.m. in a Division II semifinal, while the Jaguars visit Burlington to take on undefeated Assumption in a final-four Division II matchup. The winners move on to the Halton finals next week at Ivor Wynne Stadium in Hamilton. *Photo by Eamonn Maher*

Lordy, Lordy,

NOTICE OF STUDY COMMENCEMENT

PUBLIC COMMENT INVITED LINDSAY COURT WELL ADDITIONAL WATER SUPPLY CAPACITY CLASS ENVIRONMENTAL ASSESSMENT

THE STUDY

Halton Region is initiating a Class Environmental Assessment (Class EA) study for the provision of additional water supply capacity from the Lindsay Court Well for the Georgetown urban area including nearby hamlets of Stewarttown, Glen Williams and Norval. One of the projects identified in the *Georgetown Water Supply Master Plan Review* (Halton Region, June 2003) is to provide future growth in the Georgetown urban area with additional municipal water supply from the Lindsay Court Well. This Class EA study will evaluate an increase in the maximum day pumping capacity at the Lindsay Court Well from 6,545 m³/day to 7,500 m³/day.

Figure 1 – Study Area Map

From 2006 to 2007 and in consultation with the Ministry of the Environment (MOE) and Credit Valley Conservation (CVC), Halton Region completed an ecological monitoring program and groundwater assessment of the Lindsay Court Well to confirm the feasibility and sustainability of this project. The map above shows the approximate study area.

THE PROCESS

The study is being conducted in accordance with the requirements of a Schedule 'B' project under the *Municipal Class Environmental Assessment* (June 2000), which is an approved process under the Ontario Environmental Assessment Act. A Class EA Report will be prepared to document the planning process followed, including conclusions, recommendations and how public input was received and considered. The Class EA Report will be available for review for a period of 30 calendar days. At that time, notification of the review period and Class EA Report locations will be made by means of a similar newspaper notice and a letter mailed to those on the project contact list.

COMMENTS

We are interested in any questions or comments you may have concerning this project. Please contact either one of the following project team members if you have any questions or comments, wish to obtain more information on the project, or if you would like to be added to the project mailing list:
