

Boundary change puts some properties under NEC control

Under a realignment of Niagara Escarpment Development (NEC) Control Area and Escarpment Plan boundaries, some Halton Hills properties are now subject to NEC development control.

The first is located to the west of Third Line,

north of 17 Sideroad and the second is located east of Third Line, north of the rail line. These lands will no longer be subject to municipal zoning, but instead, a development permit will be required from the NEC.
