Green the season!

FREE lights!

Shed some light this holiday season!

Project Porchlight and the Ontario Power Authority want to celebrate taking our old energy-gobbling incandescent Xmas lights off the grid and switching to ultra-efficient seasonal LEDs (SLEDs). So come to your Home Hardware store in Acton for a light exchange this **November 18**.

Home Hardware
from 10 a.m. - 2 p.m.

It's easy: just bring in some of your old incandescent lights and you'll get a FREE string of SLEDs when you buy another string.
See you there!

Way to go! You've turned in your old, energy-gobbling incandescent holiday lights. One Change and the OPA just would like to thank you for greening the season!

Valid today only!
NOV 18, 2007

Did you know?

- Seasonal LEDs are 97% more energy-efficient!
- SLEDs are safer: shock-resistant and shatter-proof, they generate less heat and lower the risk of fire.
- SLEDs cost you less in the long run. The energy savings they create means they pay for themselves in two seasons and last 200 times longer.
