

Welcome to the New Georgetown Chrysler Dodge Jeep 2008 Ltd.

We feel very fortunate to have this opportunity in Halton Hills, and we are looking forward to building a state-of-the-art facility and team of individuals to service all your transportation needs.

Georgetown Chrysler has always been a pillar in the community and we made a commitment to continue this tradition, always increasing our vision to align with yours, the customer.

You won't have to wait long for construction to begin, thanks to Mark and Doug from the planning department to assist steering us in the right direction.

The automotive industry has changed over the years, more focus on fuel economy is more important today than ever before.

We have an exciting line up of fuel efficient people movers that will meet everyone's needs.

Watch for the launch of the all new 2009 Ram 1500, boasting over 35 new or improved features and several segment firsts.

And my favourite, the Jeep line, trail ready or economy minded, there is a Jeep to fit your every desire.

We are launching our new website, check for us online at www.georgetownchrysler.ca.

We intend to continue to train and mentor our staff on ways of serving our marketplace and truly become your Halton Hills dealer of choice.

You won't see many letters or poems from me: "Unlike my friend Paul, the poetry has made it's last stand, But the deals will be happening, because Carman the Car-Man I am."

On behalf of Ed and Jennifer Lewis and myself (Carman Widdess), we look forward to some exciting times ahead.

We'll put the coffee on, drop by and say hi!
