With the cold weather settling in, now is the perfect time to make your home more energy efficient with new windows and doors, says Dave d'Entremont of Buy Wise Windows & Doors.

For more than 30 years, the d'Entremont family has owned and

operated the local business, which specializes in the sale, service and installation of windows and doors.

This winter, Dave is encouraging the people of Halton Hills to take advantage of government energy rebates by replacing their windows and doors.

"You're going to be spending the money anyways," Dave says, adding that you can spend the money on higher heating bills or you can spend it on

energy-efficient products and save money on future heating bills.

All the windows and doors that Buy Wise sells and installs are custom made to meet the unique measurements, styles and specifications of each home and homeowner. The business's salespeople and installers work with the customer every step of the way to make sure everyone is happy and satisfied.

"We don't accept payment until the

job is completed and the customer is happy," says Sheri d'Entremont, who runs the business with Dave.

"It gives the customer peace of mind knowing that their job is going to be done right."

For more information, contact Buy Wise Windows & Doors at 905-873-0236, visit www.buy-wise.ca or stop by the showroom at 341 Guelph Street in Georgetown.
