SMA FUNDRAISING BLITZ

Spinal Muscular Atrophy (SMA) is the #1 genetic killer of children under the age of two. It destroys the nerves that control voluntary movement such as crawling, walking, head and neck control and swallowing. Every 1 in 6000 babies are born with SMA and 50% of those diagnosed will die before the age of two. One in forty people carry this gene. Let's help find a cure for this terrible disease.
