**Two year anniversary**

March has arrived and the Fire Services is celebrating a two year anniversary. The anniversary being an amendment to the Ontario Fire Code which came into effect March 1, 2006 requiring smoke alarms on every level of the home including the basement level.

It's a fact that in approximately 50 per cent of fatal, preventable home fires, there was no smoke alarm. These additional devices will enhance the life safety of all occupants while at the same time reduce property damage through early detection. The additional working smoke alarms will give occupants the extra precious seconds needed to escape a fire.

While Halton Hills has not experienced a fire death since 2004, residents need to remain vigilant in the maintenance and testing of their smoke alarms.

**March Break Happenings**

If the snow stays around, March Break may provide additional times on the toboggan hill. Public Education Captain David Ford says, "Here is an opportunity for parents to promote Risk Watch and the valuable lessons of protective head gear". Ford adds, "Head injuries can occur in a collision with trees, fences or rocks and more so with the speeds that can be reached on some hills". The cold weather also promotes the wearing of additional warm clothing including scarves and hooded coats. Ford says, "These can quickly become strangulation hazards if careful attention isn't given to ensure they don't become entangled".

Risk Watch provides information regarding the knowledge and critical thinking skills children need to make positive choices about their injury prevention behaviours.

Should you have any questions about fire and life safety please call David Ford, Captain-Public Education 905-873-2601 ext 2115, Armando Cabral, Captain-Public Education 905-873-2601 ext 2101
