Pandemic H1N1 immunization clinics in Halton

Please visit www.halton.ca or dial 311 to find out about clinic information. Clinic dates and times are subject to change so please ensure you visit the website or call Halton Region prior to heading out to a clinic.

Vaccine Shortage

The vaccine shortage will impact the operation of our clinics. We will update our clinic schedule at www.halton.ca and through 311 and re-open our immunization clinics as soon as we have a vaccine shipment from the Federal Government. You can also call your doctor's office to see if they have the vaccine available.

Gary Carr
Regional Chair and
Chair of the Board of Health

Message from Regional Chair and Chair of the Board of Health, Gary Carr

I would like to thank residents for your patience and cooperation at this very busy time. As part of Canada's largest immunization campaign in history, Halton Region's staff have been working hard to respond to the needs of the community. I have personally spoken to hundreds and hundreds of residents at our clinics, and we have heard very kind words from many of them who had a positive experience while attending.

In 10 days, Halton Region will have used our 73,000 doses of vaccine, using all of the vaccine that has been given to us by the Federal Government. We want to resume our clinics and vaccinate as many

more residents as possible, and will do so once we are provided with more vaccine from the Federal Government. Halton staff, including our nurses and numerous support personnel, have worked tirelessly toward this feat. I would like to personally thank them all for the professionalism and dedication they have demonstrated during this busy and stressful time.

Thank you to our residents and staff. As always, we demonstrate that Halton is second to none, and truly a great place to live, work, raise a family and retire.

Visit our website at www.halton.ca for up-to-date H1N1 immunization clinic information and to sign up for e-mail alerts.
