Multi-million upgrade to Acton sewage plant

Halton councillors were expected to approve issuing a \$2.2-million tender to upgrade the Acton Wastewater Treatment Plant at yesterday's (Wednesday) Planning and Public Works Committee. The upgraded system is needed in order to service build-out of the existing urban area of Acton.

As well as recommending that the con-

tract be issued to Christie Mechanical Contractors Limited of Caledon, staff asked that the budget be increased by \$410,000 to upgrade the inlet works – specifically the screening and grit removal systems – originally built in the 1980s at the Third Line plant.

While the original budget was \$1.9-mil-

lion, staff said higher than expected construction costs are to blame for the budget increase to \$2.3-million, and that the shortfall should come from the rate holding account.

After treatment, water is discharged into the environmentally sensitive Black Creek, west of Churchill Road.
