Novel School Maintained for Queen Mary Hospital Patients One of the most unique schools in Canada is that maintained for the inmates of the Queen Mary Hospital for Consumptive Children. These youngsters, many of whom are now recovering, are given a normal education. Most of these school-children are so bright and playful that one wonders how it can be possible that they make little headlight their dull, inquisitive faces. In this school, the hours are from 9 to 12 in the morning and from 2 to 4 in the afternoon. For the pupils in this novel school are not so strong as the average child of like age. The work covers that period lying between kindergarten and high school entrance. Domestic science and vocational training is also taught the other pupils. Some of the girls make little dresses for themselves and the boys have made several shirts. Each year many thousands of dollars are spent in bringing such children back to health. Will you please help the Queen Mary Hospital in its work of mercy by sending a gift to George A. Reid, Treasurer, Ogea Institute, Toronto 2.
