HERRING AND THE MOON The farmer is not the only person to plan his work in keeping with the phases of the moon, a practice which is still carried on in many farms, or so it would seem, in the advice tendered to Cape Breton herring fishermen, according to the National Resources Department of the Canadian National Railways.

A town councillor of North Sydney has apparently been checking up on the moon and, according to his lunatic observations, the run of herring coincides with the moon's phases.

Kipling, and gave the present financial standing. Community singing was followed by a few words from Mr. Brillinger, who introduced the special speaker of the evening, Rev. Mr. Wright, Curate of Christ's Church, Hamilton. Mr. Wright gave an inspiring talk on "Bon Voyage," in which he likened the church to a ship, sailing from one port to another, its last port being the end of the Great War. He compared the A. Y. P. A. members to crew and passengers on board the good ship, and warned against the strife and misunderstanding which go to blemish the ship, and retard its passage.

A MONTREAL LETTER

Dear Free Press: As showing the changes following altered conditions in the onward march of the years, I notice the demolition of the large stone building, known as the Dominion Square Church. This, in the latter part of the last century, was ministered to for a time by Rev. Dr. Antiliff, who was an Acton pastor the last two years of his ministry—1909-10. This church, as well as another in the "downtown" business region—Douglas Church—are merged in the new "Dominion-Douglas" on the side of the mountain in Westmount, and its pastor now is Rev. A. Lloyd Smith, M. A., well remembered as an Acton boy. Another large stone building, the congregation—Anglican- Presbyterian—is merged with the Eskine United.

"Scarlet Pimpernel" Outstanding Picture The "Scarlet Pimpernel" showing at the Gregory Theatre on Monday, is a spectacular and romantic drama of adventure adapted from Baroness Orczy's widely read novel. An outstanding feature is the magnificent acting of Leslie Howard, who gives by far his finest screen portrayal and invests the splendid characterisation with quality without diminishing the general appeal of the picture. He is aided in his task by Merle Oberon, the lovely Anne Boleyn of "Henry VIII," and by the splendid direction of Alexander Korda.

THEATRE MYSTERY Simpkins was one of those pitty-potty people who, when they see a piece of cotton or thread on a person's clothes, cannot resist the temptation to pick it off.

He was in the theatre one night; saw a piece of wool on a girl's collar. He reached out and picked it off, and kept on pulling until he found that he had a large ball of wool in his hands. Quickly he dropped it on the floor and vanished from the theatre. The next morning the victim of Simpkins' attentions said to her sister: "A funny thing happened at the theatre last night—I lost my veil!"

NOT THAT WAY Political Speaker: "I'm pleased to see such a dance crowd here to-night." Voice from the crowd: "Don't be too pleased. We ain't all dance."

GOOD NEWS FOR TOURISTS

In keeping with the policy of the Canadian Government to make the movement of bona fide tourists crossing the border into Canada just as free of "red tape" and restriction as possible, another important change in tourists' automobile regulations, which will advantageously affect those tourists who enter Canada for a protracted stay, has been made. Hereafter, tourists coming by automobile whose proposed visit extended over a period of ninety days and up to six months, were required to obtain the bond of a guarantee company at the frontier port of arrival, and others who had first planned to stay sixty or ninety days, and subsequently decided to remain longer, were required to visit the nearest collector of customs and furnish a bond in order to obtain an extension up to six months. The new regulations provide that neither bond nor deposit will be required hereafter in respect of tourists' automobiles, without regard to the duration of stay, up to a period of six months. This provision eliminates delay at the frontier in obtaining the necessary bond, and relieves the tourist of the expense of procuring security.

Another change previously announced is the extension of the short stay period. For many years the regulations have authorized the admission, without the formality of the issuance of a permit, of temporary visitors whose duration of stay did not exceed twenty-four hours and whose travel in Canada did not extend beyond the jurisdiction of the frontier port of arrival. This period has now been changed to forty-eight hours to include week-ends and public holidays.

BRAY CHICK HATCHERY ANNOUNCES Lower Prices

At the new low prices for May and June, Bray's early-hatching chicks again offer you one of the best chick values you can get. After the first of May, it costs much less to produce baby chicks than it does earlier in the Spring—so naturally they can be sold for much less. The Bray chicks you buy in May and June are exactly the same as those you've gotten two months ago. They are hatched from eggs drawn from the same breeding flocks. The chicks are graded according to egg size before the eggs go into the incubators. And they are hatched in exactly the same way.

It stands to reason that they will perform in the same way as early hatched chicks—and they have the advantage of warmer weather right at the start. With ordinary good management and feeding, our "Extra-Profit" pullets will begin laying at five months old—and the cockerels will make heavier-than-average market chickens in the Fall.

The new prices apply to all NINE breeds, and to "Sexed" pullets as well. Come into the hatchery and get a copy of our new Price List. We believe you will be pleasantly surprised when you see these reductions.

If you are interested in "start-up" chicks, we have a limited supply of 10-day-old and 3 week-old chicks available. They are nicely started and the prices are reasonable.

ADOPT A CHILD WEEK

The Halton and Peel Children's Aid Societies are very glad to join in the Provincial Department of Public Welfare Adopt a Child Week program. In what better way, among others, could His Majesty's Jubilee be more fittingly celebrated than in the laudable undertaking of making provision for the boys and girls who need homes, care and protection? This special week, set apart by the Department of Public Welfare, offers such an opportunity.

Are there not in our two counties many childless homes that would feel it a privilege to receive into their keeping a "fussy-checked" child? Possibly no greater contribution could be made to social welfare than the establishing of pure and wholesome home surroundings for the less fortunate children.

In the Children's Home at Milton a number of girls and boys who would welcome kind foster parents and bring sunshine to any home. The Children's Aid Societies invite the people of our counties to consider thoughtfully the opportunity now offered them. The Superintendent, Mr. G. P. Thompson, Milton, will be very glad to furnish particulars to any interested.
