

Notice of Births, Marriages and Deaths... In Memoriam Notices, see and see per line additional for poetry.

BORN
ROBERTSON — On Sunday, October 13th, 1935, at the Alexandra wing, Western Hospital, Toronto, to Mr. and Mrs. W. D. Robertson (nee Jessie Anderson) of 80 Eileen Avenue, Toronto, a son—David William.

DIED
ROBERTSON — At Hamilton, on Tuesday, October 15th, 1935, George A. Robertson, son of George Robertson, town line, Erin and Erma.

WRIGHTSWORTH — On Monday, October 14th, at the home of her son, F. E. Wrightsworth, Lot 8, Concession 6, West Caledon, Mary McDowell, widow of the late George Wrightsworth, in her 83rd year.

MURRAY — On Tuesday, October 15th, 1935, at St. Joseph's Hospital, Hamilton, Duncan Cameron Murray, only son of Robert Murray and the late Isabella Clark Murray, of Fushich, in his 17th year.

IN MEMORIAM
HOLLOWAY — In loving memory of dear little Ken, who died October 20th, 1934. He was a sweet little rosy bud. A sweet little flower from birth; So God took him home to heaven. Before he was soled on earth.

Sadly missed by
MOTHER and FATHER.
HOLLOWAY — In loving memory of our dear grandson, Kenneth Edwin, who died on October 20th, 1934.

We cannot, Lord, Thy purpose see, But all is well that is done by Thee. Fondly remembered by HIS GRANDPARENTS.

LOCALS

Hallowe'en—two weeks from tonight.
—Soon be time to count the days until Christmas.

Saturday is apple day for the Boy Scouts here.
—Thanksgiving Day—next Thursday—a public holiday.

Acton sent its quota of visitors to Erin Fair on Saturday.
—Potatoes are being gathered in. The yield is not as heavy as last year.

Liberals celebrated the victory well in the County Town on Monday evening.
—And now posters can be removed and committee rooms abandoned for another four years.

The election was conducted in Acton vigorously, but with the best of good feeling by all.
—The Town Hall has undergone a thorough housecleaning and scrubbing the past week.

The new cars for 1936 are now being announced. They even come ahead of the new calendars.

The Public School children are having a couple of days holidays during the Teachers' Convention.

You'll find the shopping news in the ads. Merchants who have attractive offerings tell the good news.

The Inter-school Field Meet of Acton, Georgetown and Milton High Schools has been postponed until spring.

Harold Pickett, of Morley, won the M. P. Hepburn Trophy at the Provincial Plowing Match at Oshawa yesterday.

A couple of the boys in the rugby game yesterday received some rather severe injuries that required medical attention.

Acton and Georgetown High Schools clashed in a rugby game at the Park here yesterday afternoon. The locals won by 14-5.

James McKinnon, Clerk of Erin Township, suffered severe lacerations of the left hand when the member came in contact with the knives of a root pulper he was operating.

Car in Ditch — Driver Slept
When William Carnochan fell asleep at the wheel of his car on Sunday evening, he awoke rather suddenly to find the car fairly well wrapped around a telephone pole on the highway, just west of Acton. The machine was pretty badly damaged, but Carnochan and his companion escaped with a few cuts and minor injuries. Chief McPherson, of Acton, investigated the accident.

Annual Short Courses for Palermo
Plans are now under way to hold three months' short courses in Agriculture and Home Economics at Palermo the coming winter. At an enthusiastic meeting, held at Palermo on Wednesday evening last, J. E. Whitehead, Halton County Agricultural Representative outlined the courses offered. Committees were appointed to canvass for students and prospects are very bright, we understand, for outstanding courses. Notwithstanding the fact that the Department of Agriculture in Toronto received applications for nine such courses, numerous permit the organization of only seven. Palermo is therefore, one of the favored, and local leaders in the Palermo District are out to excel the splendid courses previously held at Acton, Burlington and...

AMONG THE NEIGHBORS

Results of Election in Neighboring Counties Which Will be of Interest Locally

Of course interest centered in the Halton County returns first, but there was also a keen interest in what neighboring Counties were doing.

In Peel County, Gordon Graydon, Conservative, and W. J. Lowe, Liberal, waged a close struggle that kept Peel in the Conservative column, with a majority of 248. C. C. F. and Reconstructionists were doing.

In Wellington South, Outhrie reign ended when R. W. Gladstone won by a majority of 2,028 from the Conservative standard bearer. The C. O. P. and Reconstructionists both lost their deposits.

Dr. Blair, Liberal, returned Wellington North with a majority over Duncan Sinclair, Conservative, of 1,729.

Westworth gave Lennard, Conservative, a majority of 173 over Cormack, Liberal. C. C. F. and Reconstructionists were also in the race.

In Grey-Bruce, Miss Agnes McPhail retained her constituency with a majority of 1,230. Hall, Liberal, and Campbell, Conservative, were second and third, respectively.

In Muskoka-Ontario, the Liberal, Stephen Puritas, defeated the veteran Conservative, Dr. Peter McGibbon, by a majority of 1,018. We were interested in watching the success there of Mr. Harmon S. Rice, editor of the Thistle and the Forrester, who was running on the Reconstruction ticket. His vote was 808 and that of the leader, 710.

In North Waterloo, Hon. W. D. Euler Liberal, was returned with a majority of 8,735. Both of his opponents lost their deposits.

"CREAM DESSERTS"
Cream desserts, with their attractive appearance, delicious flavor and smooth texture, are undoubtedly among the most popular to serve as the final course for lunch or dinner. When entertaining, the thoughtful hostess invariably serves either a chilled or frozen cream dessert, for the knows that it will be enjoyed by even the most fastidious guest, and no one will dispute the fact that cream desserts of all kinds are looked upon as real treats, no matter how often they are served at the family table.

The following recipes have been selected from the publication "Cream Desserts," prepared by the Milk Utilization Service, Dominion Department of Agriculture:

HAVARIAN CREAM
1 tablespoon granulated gelatine
1/2 cup cold water
1/2 cup sugar
2 egg yolks
1 cup hot milk
2 egg whites
1 cup whipping cream
1 teaspoon vanilla
Pinch of salt

Soak gelatine in cold water. Beat egg yolks and combine with sugar and salt. Gradually add the hot milk and cook in top of double boiler, stirring constantly until mixture thickens. Add gelatine. Cool, and when mixture is partially set, fold in stiffly beaten egg whites, whipped cream, and vanilla. Pour into a mould or pile in sherbet glasses. Garnish with fresh fruit in season.

MOULDED FRUIT CREAM
1 tablespoon granulated gelatine
1/2 cup cold water
1/2 cup fruit juice
1/2 cup sugar
1/2 cup canned fruit, dried
1 tablespoon lemon juice
1 cup whipping cream

Soak gelatine in cold water. Dissolve gelatine and sugar in hot fruit juice. Cool. When mixture is partially set, add lemon juice and dried fruit. Fold in whipped cream, mould and chill. Note — Canned pineapple, peaches, cherries, strawberries, or a combination of fruits may be used.

POMPADOUR RICE
1 1/2 cups cooked rice
3 tablespoons fruit sugar
1 teaspoon vanilla
1 cup whipping cream
Pinch of salt

Combine rice, sugar, salt and vanilla. Whip cream and fold into rice. Serve with maple syrup cooked until thick. Sprinkle with chopped nuts.

PEACH MOUSSE
1 teaspoon gelatine
2 tablespoons cold water
1 cup milk
1/2 cup fruit sugar
Pinch of salt
1 tablespoon lemon juice
1 cup whipping cream
1 cup peach pulp

Soak gelatine in cold water. Heat milk and dissolve gelatine in it. Add sugar and salt. Cool. Add lemon juice, and when mixture is partially set, fold in cream, stiffly whipped, and peach pulp. Place in freezing trays of mechanical refrigerator and freeze, or put in a mould, cover with buttered paper and tight-fitting cover and pack in ice and salt (six parts ice to one part salt). Let stand 4 or 6 hours.

DECEPTIVE
A colored man, after being rescued from a deep pond, was asked why he had ventured in when he couldn't swim. "Well, to tell the truth," he said, "I didn't think it was so deep, 'cause it only took that little duck up to its tail."

Obituary

ALBERT WALKER

The sudden death occurred Saturday of Albert Walker, manager of and partner in the F. T. Hill & Co. store, a large Orangeville retail firm. While watching the judging in the horse ring at Erin Fair on Saturday afternoon, Mr. Walker was overcome by weakness and was assisted from the grounds to Dr. Gear's office in Orangeville, where he passed away about an hour after he was admitted. He was a son of the late Mr. and Mrs. Robert Walker, of Markdale. Mr. Walker is survived by his widow, formerly Miss Maybell Gordon, of Oshawa; three sons, Gordon, Raymond and Grant, all at home; two brothers, John, of Markdale; and Robert, Peace River, Alta.; and four sisters, Mrs. G. Bowers, Swift Current; Mrs. E. Doherty and Miss Annie Walker, Detroit; and Mrs. John Hewitt, Massey, Ont.

GEORGE LENARD WATSON

One of Georgetown's most highly respected citizens, in the person of George Lenard Watson, beloved husband of Phoebe Jane Lane, passed away at his home on Maple Avenue, on Friday last, October 4th. Mr. Watson was in his 81st year, and was born in Nasagaweya Township. He came to Georgetown twenty-three years ago, and has resided here ever since. He farmed in Nasagaweya for many years before coming to Georgetown, and often spoke of the pioneer days in the township, when oxen were in common use. He is survived by his widow, formerly Phoebe Jane Lane, whom he married forty years ago last April; four sons, Alfred, Robert and Victor, of Rockwood; and Charles, of Kitchener, Sask.; two daughters, Mrs. Emily Wilson, of Eden Mills; and Mrs. E. R. Dugg, of Vancouver; also one sister, Mrs. Henry Hubbard, of Cloverdale, Vancouver. He was a member of Limehouse United Church. In politics he was a Liberal. The funeral service at the home on Monday was conducted by Rev. G. T. Stephenson, after which the remains were taken to Ebenezer Church, Nasagaweya, where service was held. Rev. H. H. Somerville, of Ebenezer, and Rev. W. J. Taylor, of Rockwood, assisted in the service at the church and grave. The pall-bearers were R. C. Nixon, Wm. McDowell, Wm. Bullyant, John Campbell, V. McDonald and W. J. Brownridge. The remains were interred in Ebenezer Cemetery. — Georgetown Herald.

WE SELL PUBLICITY

There are a few people in every community who have the wrong slant on the mission of a newspaper. They do not realize that it is a business proposition, just the same as any other industry in a community, even though its stock is traded in publicity. For instance, the Chronicle has housed under its roof a plant that cost approximately \$20,000, and the staff that operate it are paid wages that will compare favorably with those of any other manufacturing industry. There are three strings to our bow, and no one or two of them would be adequate to keep the business a going concern—it takes the combined earnings of all three branches—subscriptions, advertising and job printing. The most expensive end of the business is that which is operated to produce the newspaper—i.e., in other words, to produce publicity. No other business gives so much gratis to its community as the press. It supports the Town Council in making effective by-laws that are passed to regulate civic life—it promotes every effort to make a town attractive to live in and to make the citizens comfortable and happy—it loyally supports all philanthropies, those who are doing something for the underprivileged in life, such as the Lions Club, Women's Institute, Daughters of the Empire, the Hospital and its Auxiliary, the Churches, the Legion and its Auxiliary, the various local fraternal societies, the Public Library, the Horticultural Society, the Retail Merchants' Association, etc. In fact every organization whose mission is to keep our town progressive and up-to-date. Not only does the paper give generously of its space, free of charge in a general way, but the staff lend financial support also. Yet there are some who apparently think the columns of the paper should be open to free space in boasting specific events or attractions. The hard and fast rule of all newspapers is that publicity for attractions only of which money is to be made, directly or indirectly, by an admission charge or collection, must be paid for. Committees might just as well walk into a factory, a grocery store, a dry goods store, or a gent's furnishing store, and ask for two or three dollars' worth of goods off the shelves—as ask a newspaper for free publicity that costs several hundred dollars each week to produce. We would remind the public that besides the wage bill, there enters into the cost of production of even an humble weekly newspaper, the cost of telephone, light, heat, power, telephone, repairs, maintenance, office expense and a hundred others. Perhaps this angle hasn't been considered by those who sometimes look almost astonished when the editor, who with his staff pay their obligations the same as other citizens, asks payment for what he has invested so much money to be in a position to sell.—Dumville Chronicle.

Red, White and Blue Are Popular Hues for Flags

Red, white and blue, colors that come into the minds of people whenever flags are mentioned, are the most popular ones it happens, for the flags of the world, says a writer in the Montreal Herald. Red is used more generally than any other color in flag-making, followed in order by white and blue. Next in order, but much less popular than the three leaders, are yellow, green and black. Orange, which appears in the banners of three countries, about exhausts the colors used in the world's flags. One country (Spain) uses purple. Brown does not appear on any national flag.

Astronomical devices are favorites of flag-makers. Stars are used by many countries and there are suns and moons, the latter usually in the form of crescents. Brazil makes use of a circle of the firmament showing the Southern Cross and neighboring stars.

The Southern Cross also appears in the flags of Australia and New Zealand. Alaska has placed on its flag the Great Dipper and Pole star.

Other countries use characteristic symbols—Afghanistan, a mosque; Cambodia, an eastern temple; the Republic of Lebanon, a cedar; the Papal state, crossed keys and triple crown; Germany, a swastika; Siam, white elephant; and the Soviet Union, a hammer and sickle. Tibet shows the sun rising over a snowy mountain.

Great Himalayans Grew for Millions of Years

A few million years before the North-east hemisphere came into the grip of the ice age, the Himalayan mountains began to rise from a low mountainous land, notes a writer in the New York Times. At that time dense jungles covered its southern slope, which was drained by numerous rivers that wound their way to the ancient Ganges plains. These primeval streams washed down the rock waste from the highlands, and their floodwaters carried with them logs of fallen trees, leaves and skeletal remains of forest animals which eventually got embedded in slaty and rocky matrix. This process continued for a long time and thick rock formations began to pile up in the plains, which gradually sank under the load. These formations nowadays form the foothills of the Himalayas.

It is here that, among numerous other fossils, are found the relics of large apes. These are represented by jaw fragments belonging to certain genera whose evolution developed in several directions, some becoming more like the recent great apes, while others approached man.

Yakows Unusual in Ceylon
Sinhalese natives carriers are not beyond "adding the lily" when preparing ebony elephants for tourists and curio dealers, say naturalists familiar with wild life in Ceylon. Nearly all the little black elephants bought in Ceylon by tourists or featured in displays of fogs in Canada are curved at Galle in Ceylon. They are bred and kept in respect, Hellellin. Each is made with shiny white tusks. The reason for the tusks is that everybody expects an elephant to have tusks—and the Sinhalese are an obliging people. Actually, however, very few of Ceylon's live elephants are built that way!—Montreal Herald.

With the Hawk Family
The Cooper's and the sharp-shinned hawks are deserving of their reputations as predators, an authority states, and there is some doubt as to the status of the marsh hawk and the red-tailed; but most of the other hawks are properly classed as beneficial. Likewise are declared all species of owls other than the Great Horned owl are valuable residents because of the large numbers of mice and other rodents they consume.

The Baffling Vitamins
Vitamin A—Butter, tomatoes, whole yellow corn, eggs and green vegetables. Vitamin B—Wheat, asparagus, heart-liver, kidney, eggs, milk, cereal, and green vegetables. Vitamin C—Raw tomatoes, grapefruit, lemons, oranges, bananas and pineapples. Vitamin D—Cod liver oil, eggs, milk and butter. Vitamin E—Wheat germ and whole wheat grain. Vitamin G—Dried yeast, milk, eggs, liver, kidney, wheat germ, meat, and green vegetables.

Origin of Honeydew Melons
The honeydew melon on the market in this country is the same as the melon listed by Paris seedsmen as Anthelm Winter green fleshed melon. The original seed of the honeydew melon is said to have been obtained from a melon shipped from Africa to New York city. This seed was planted at Itzky Ford, Colo.

Stocks Still Stand
Visitors to England passing through the village of Albury Hertfordshire, a few miles from London, may see the old village stocks where vagrants, trespassers, poachers and incorrigible idlers had their ankles pinioned in a pair of notched stocks. Several could be dealt this cruel type of justice at one time.

Temperature of Ionized Atmosphere
Experiments give further proof that the layers of ionized atmosphere of the earth from 62 to 124 miles above sea level have a fairly constant temperature regardless of the time of day, night or season.

Roads, Town Hall and Special Days

(Continued from Page One)

The Clerk was instructed to notify Mr. Pettit, County Clerk, that the individuals re hospital treatment, were not residents of Acton.

The Clerk was instructed to write the Secretary of the 1st Acton Troop of Boy Scouts, thanking them for their cooperation in sending collection of Canadian barks to the Acton, England, Troop of Scouts.

It was decided that the Council members would inspect the Town Hall premises on Tuesday at 1.00 p. m., and also decide what to do with regard to the flag from Acton, England.

It was also decided to find out what amount of money was left in the estimate for road expenditure, so that other necessary improvements could be made.

It was also mentioned that Clerk Farmer had nothing whatever to do with the list of voters used at the Federal elections.

Reeve Harrison announced that an agreement had been reached between the Lakeside Chapter of the I. O. E. and the municipal officers as to what work would be done by each in cleaning up the Town Hall premises.

PRESENTATION

To Mr. and Mrs. H. F. Allison, Prior to Their Removal to Milton

Just prior to the removal to Milton friends gathered at the home of Mr. and Mrs. H. F. Allison and presented them with a radio lamp and spent a social evening. The presentation was made by Mr. J. C. Dobbin, and the following address was read by Mrs. W. A. Lashby:

Acton, October 6th, 1935
Dear Friends:
We, a number of your friends, have met here to-night for the reason that we have recently learned that you are soon to leave our midst, to reside in Milton, and we believe it is a fitting occasion to express our appreciation of your friendship while through the years here among us.

We extend to you both our heartfelt congratulations and our sincere wish for every success in your new business life you are about to launch. "May your purses always be heavy, and your hearts light!"

We shall miss you both, and we ask you to accept this token of remembrance. May it brighten the rays of friendship, and reflect upon the memories of your many happy associations in connection with us.

Signed on behalf of your friends,
MRS. JAS. DOBBIN,
MRS. JOHN McARTHUR,
MRS. J. C. GARDNER,
MRS. ROBERT LASHBY.

Mr. Allison replied, thanking all for their good wishes and kindly remembrance. The balance of the evening was spent socially and refreshments were served at the close.

ADAPTABILITY A FACTOR IN SUCCESS

When your mother is not feeling well, she likes to be fussed over. She wants her head rubbed and her hand stroked. She can keep you busy fixing an ice bag, getting her a glass of water, lowering a shade, or raising a window.

Aunt Isabel is just the opposite. If she feels ill, all she asks is to be left alone. She seems to resent it if at lunch time you ask her what she wants to eat. She rejects one proffered service after another in the most thorough fashion. Just let her alone! That is all she wants of you. The satisfactory nurse from your mother's point of view, would impress Aunt Isabel as a perfect nuisance, while if you treated your mother during an illness as Aunt Isabel wants to be treated, she would be heartbroken over what she would regard as your neglect.

The difference between those relatives of yours is suggestive. The method that wins with one is a failure with the other. Likewise, two employers may differ as decidedly as your mother and your aunt. One man likes workers who follow instructions exactly and leave him to do the thinking. Another is pleased by signs of originality among his employees; he likes to have them introduce new methods, short cuts. Your success will depend on your readiness to adapt yourself to the preference of whichever type of employer you have. Indeed, one of the main factors in success, and one that is frequently overlooked, is adaptability.

IF YOU CHANGE YOURSELF
Many of you young people have a feeling that it is useless to try to improve yourself until your circumstances have changed. What is the use of trying to speak correctly if your associates defy the laws of grammar every time they open their mouths? Why form a taste for good literature if you have to work in a factory?

Well, the answer is simple. Change yourself and your circumstances will change. Advance intellectually and spiritually, and you will move up in the world. As soon as you have wrought a really worthwhile alteration in yourself, your circumstances, your opportunities, your world will change correspondingly.

COOLING AND WAX PLUCKING

The necessity for the proper cooling of the bodies of fowl which have been rough plucked prior to being treated by the wax-plucking method is fully dealt with in the booklet by Dr. N. H. Grace on "The Use of Wax in the Plucking of Poultry." They should be hung in a moderately cool room until the body temperature is very considerably lowered. The time of hanging to cool will vary for different sets of conditions. In a room of average temperature about two hours will be required. In some cases, it may be advisable to extend the cooling a little longer, as the wax peels more readily from cool birds. In other cases a period of one hour may be sufficient, but the body temperature should be reduced to about 70 degrees Fahrenheit. The temperature may be readily determined by holding the thermometer between the wing and the body for a brief interval. If the bird is not cooled sufficiently there is a tendency for the wax to leave smears. Therefore, if smears of wax are noticed, the birds should be allowed to hang a little longer prior to wax treatment. The operator, Dr. Grace suggests, would do well to try various cooling periods with, say three birds; the best results would set the conditions for the large group to be processed. The booklet is published jointly by the National Research Council of Canada and the Dominion Department of Agriculture.
