We understand that rural mail couriers were expected and did carry the mail on that day. In Toronto the observance was confined to about an hour of cessa tion of business. Localy the stores were nearly all closed all day, but most of the industries were operating. It is far from observance of a public holiday in any sense of the word, and to maintain the proper atmosphere and complete observance of the occasion that it demands it would seem that a special Sunday, near November 11th, would be the logical date for services and remembrance.

In the Right Direction

With a speed that is commendible the newlyelected Liberal Government has opened negotiations and made arrangements with the United States for a form of reciprocity which undoubtedly will be beneficial to both countries. It is almost twenty-five years ago that the Laurier Government went down to defeat on a reciprocity issue, but the intervening years have seen many changes in thought. Undoubtedly high tariff walls are not conducive of good feeling between nations and a lowering of these barriers and freer exchange between two neighboring countries will make for better feeling. It matters little who can be blamed for the start of this tariff war, but it is surely a good sign to see the end of it. Canada needs markets for many of the Very Letter, 1-4. its commodities and likewise can use to advantage the products of other countries. It is a move in the right direction.

The leaders of Judah and Benjamin responded promptly and heartly to the decree of Cyrus. Those who went were those "whose spirit God had stirfed," Cyrus to make the proclamation (3 Chron. 38: 23), and now God's Spirit utirred up the people to carry it out (cf.
