JOHN BUNYAN'S FLUTE

While John Bunyan, who wrote Pilgrim's Progress was in prison his jailors heard music coming from his cell. They decided to take away his instrument, but the music ceased as they drew near the cell and they could find nothing to show how the music was made. From time to time the music sounded, but only Bunyan and his book were found. What had happened was that Bunyan had made a tlute from a loose rail of his stool, and on hearing the goaler's step he would alip it back into its place and pore over

FAULTS

his book.

In the intercourse of our life we more often please by our faults than by our good qualities. Goothe expressed this thought in these words, "A man's errors are what render him amiable. I said one day to a girl of fourteen, "If you were but as good as your brother," "Well," she replied, with something of a bashful sullentiess, "I don't care, you would not be so fond of me if I were.

FRUIT GROWIN IN CANADA

Pruit growing is an important branch of Canadian agriculture, embracing wide range of fruits from hardy northern berries to peaches and grapes. Many kinds of frint are successfully grown in many sections of the Dominion, but friut growing as a commercial industry limited to rather well-defined districts. these being principally the Annapolis home of their parents, Mr. and Mrs. H. Valley in Nova Scotia, the southern half of Ontario and the valleys of British Columbia. The valley of the Saint John river in New Brunswick produces apples on a commercial scale, and there are parts of Quebec where apple growing is successfully practised on a commercial

In Nova Scotia, the apple growing in dustry has assumed great importance the of-town visitors and most regiments in bulk of the crop being annually exported to Great Britain. The first experi-Ethel Joyce, Bronte, was ordered mental commercial shipments of apples transferred-to-the-Ontario-hospital-at to England from the Annapolis Valley months ago, near the Brant Inn cross- record crop of about 1,900,000 barrels was produced in 1911, and further redords were made in 1919 when the gross crop exceeded 2,000,000 barrels.

Apple growing in Quebec dates back the celebrated Pameuse apple is thought quality are very great, but at present

In Ontario, where the commercial production of all kinds of fruit that can be successfully cultivated in Canada ha reached-its-highest-development, applea have been grown from the middle the eighteenth century. Commercia orcharding has developed only within the past lifty or, sixty years and was only made possible when the building of railway permitted trees and fruits to be transported rapidly. In addition to apples, peaches, pears, plums and cherrles, small fruits and grapes are produced upon a large scale in the Niagara

fruit-growing districts. In British Columbia commercial frui growing is of comparatively recent ori gin, but the development of commercial orcharding has been very rapid, especially during the last ten years. The most noted fruit district is that of the Okanagan Valley. Pears, plums, peaches, apricots, cherries and small friuts are also grown on a large scale.
