Best Chicks Ever Received From Ontario

LAST MONTH, we shipped 700 Leghorn day-old chicks to a customer at Chateaugay Basin, Que. On March 23rd, he wrote as follows: "I received the shipment of 700 Leghorn Baby Chicks on March 20th, and wish to state they are the best looking lot of chicks I have ever received from any shipper in Ontario." A week ago, we told you of a customer who said Bray Chicks are "better birds than you advertise." Here we have another customer saying "Best chicks I ever received from Ontario." Isn't that the kind of chicks you want in your own brooder house, this year? Get a copy of our 1936 catalogue, and you will see there a full description of the things we do to MAKE Bray Chicks "better than we advertise"—our methods of selecting breeding stock, selecting hatching eggs, blood-testing, etc. And you will find Bray Chicks very reasonably priced, considering their quality. We believe it will pay you to investigate. Fred W. Bray Limited Chick Hatchery GEO. BROWN, Agent NORVAL, ONT.

It takes quality to stay at the top year after year. For 30 years Kellogg's Corn Flakes have been champions. Today they outsell all other ready-to-eat cereals by millions of packages because they give most in value. Made and guaranteed by Kellogg in London, Ontario. Nothing takes the place of Kellogg's CORN FLAKES

NEW INCOME TAX

One Return Covers Dominion and Provincial Taxes — Exemptions are the Same

Ontario's income tax returns are due on April 30th, and machinery for levying and collecting the tax for the province is already functioning. It was learned at Queen's Park to-day. The tax is featured by the utmost simplicity, and the Government anticipates the fullest co-operation on the part of the public in the new pay-as-you-go policy. In a nutshell, the Provincial Treasurer's Department explains the operation of the tax thus: "If you are liable for Dominion income tax you are liable for provincial income tax. Fill out only one form. Make out only one cheque. Having filled out the form, take it or send it to the federal income tax office in your district. If you have filled your Dominion tax form already, completely filled out, another will not be necessary."

The form referred to is T-1935—or T-1A-1935 in case of farmers—and is the combined form prescribed and authorized by the Minister of National Revenue, Ottawa, and by the Treasurer of Ontario. It may be obtained at branch offices of the federal income tax department, from postmasters, or from provincial savings bank branches. Municipal income tax, in cities where such was levied last year, is superseded by the provincial tax and no municipal returns will be required.

Hon. Mitchell H. Hepburn, Prime Minister and Provincial Treasurer, has authorized advertisements in the press of Ontario to provide tax-payers with information on how to make the necessary returns and remit tax payments.

What Tax Will Yield As to the amount the Government expects to obtain from the tax, the sum of \$4,000,000 has been placed in the estimates, which is the net amount the tax is expected to yield after reimbursing the Department of National Revenue for the expense of collecting, and after paying to municipalities the amount to which they will be found entitled. Necessary for introduction of the provincial income tax was dealt with succinctly by Premier Hepburn in his budget address in the Legislature, March 13th.

"There is a limit," he said, "to which any government may go to support the economic structure of the state. That limit is reached when deficit after deficit is ploughed back and added to the public debt. . . . The policy of this government is to pay as we go. It is better to impose a tax that conforms to the sound principle that there must be equality of sacrifice, a tax that bears impartially on all classes in proportion to their capacity to support the cost of government, a tax that has been accepted in principle by every democratic country in the world wherever the best standards of social justice are recognized."

In the interest of returning the largest net amount to the public exchequer, it was arranged to have the income tax collected by the Dominion authorities. This saved building up a tremendous organization, and took advantage of Ottawa's experience in sifting tax rolls and building up records for nearly 20 years. Not the least important feature of the new tax is that it is evenly spread. Previously the majority of municipalities did not levy an income tax although required by statute to do so. This resulted in an inequitable distribution of the tax burden and, incidentally, in a migration of tax-evaders where the tax was not imposed.

Share for Municipalities. It is understood that the province this year will remit to those municipalities which formerly collected the income tax an amount based on last year's levy by such municipalities. Later, all municipalities may participate, the amount in each case being based on the amount collected by the province from such municipality.

The machinery set up for the collection of the income tax this year will be a trouble-saver for the tax-payer. As usual, the return is to be in triplicate, one copy to be retained, and two copies to be sent to the Dominion authorities. A small section of the return is devoted specially to the calculation of the provincial tax due. The form makes everything very clear. The tax-payer must estimate the amount of tax payable. The taxes due April 30th may be paid in four equal instalments, due dates being the last day of April, June, August and October. In case of instalment payment, the tax-payer is asked to direct the proper apportionment, otherwise the whole of an instalment would be applied to the Dominion tax.

The exemptions in general are exactly the same as for federal purposes. With certain exceptions, an unmarried person is exempt to the amount of \$1,000, a married person to the extent of \$2,000. Exemption is \$400 for each dependent child, and there are other exemptions covering the exact amounts paid for the support of various other dependents.

EXACTLY Sam—"What am you doing now?" Ho—"An exporter." Sam—"An exporter?" Ho—"Yep, the Sleeping Car Department just fired me."

CUTTING HER LOSS "My fiance lost all his money in the Stock Exchange crash." "I bet you feel sorry for him?" "Yes, he'll miss me."

SPORTS

More Rambling Round in a Runabout

Suppose we should have called this column "With Gimlet and Claw Hammer" or "With Tooth Pick and Cigar," or some other such heading that has no relation to the subject. If we were going to name it such a column, we think possibly we would choose "With Dandruff and Quill," but we'll stick with just "Sports."

Badminton came through this week with a win from the neighbors when Georgetown players came to Acton. There were some good games and Acton players are coming along.

And Detroit finally won the Stanley Cup. Well, somebody has to win, and again it looked like the best team.

Bucko McDonald is claimed by Fergus, Brampton, Guelph and Sunningdale. Such is 'ame!

Guelph will play Senior ball this year. Which, of course, would indicate that Acton, Milton, Georgetown and Brampton will likely make up the local loop.

They say the Guelph team will bear the name Peacock-Leafs. Which is going to pretty well cover a shirt front, anyway.

While the annual meeting of the Hockey Club was like the picture—unsuccessful—still, it hasn't stopped the activity. Nothing for publication, it seems, though.

Acton Continuation School has been invited to compete in the second annual Waterloo College Invitation Games, to be held on Saturday afternoon, May 2nd.

In Brampton the ball club has elected officers for the year and we notice that Ernie Coles is Vice-President of the club. Brampton club has gained an enthusiastic officer and Acton lost one.

Like it or not, the C.A.H.A. has some new rulings that just seem as if one more of them should have been made, and the first A left out of the name.

For instance, it admitted commercial hockey clubs to the Senior series and commercial and amateur just haven't exactly the same meaning.

It looks like the finish of Senior O. H. A., but it saved a lot of hockey players for their amateur standing.

A copy of the Durham Review of last week came to hand and of course it tells about Durham winning the championship.

It's a story we'd have liked to write for THE FREE PRESS.

And the Durham scribe reminds us that we picked Clinton to beat Durham. Looks as if we will never outlive that prediction.

But it is also noted that Patsley, Lucknow, Chesley scribbles all picked the same way as we did.

In looking over a sketch of the Durham team, it is noted that a number of the players are getting on in years and are slated for retirement this year. It's nice to have landed a championship for these boys.

McGill has been playing for Durham for 19 years. Trushinski has been in the game 18 years. Raybould has played Intermediate hockey for ten years. Elvridge has 10 years of hockey, all played in Durham. Other players seemed to be under the ten year mark. They are quite a bunch of veterans.

PEGGY NEEDED A miner and his wife were emigrating to America. On arrival, the clerk, reading his passport, said: "Yes, this appears all right, but how are you going to prove that this woman is your wife?" "Ma bonnie lad," said Geordie, "if this can prove she isn't, All give this ten pound."

The Public Health

CITIZENS ARE REQUESTED TO COMPLY WITH THE PUBLIC HEALTH ACT

Notice is hereby given that all residents of Acton are required forthwith to clean their cellars, drains, yards, water closets, outbuildings, and other premises, and remove therefrom all dirt, manure, and other substances which may endanger the public health, and to have the same completed by the eleventh day of May next, on which day the Sanitary Inspector will commence a general inspection. All citizens are earnestly requested to keep their premises constantly clear and thoroughly disinfectated. O. H. HARRISON, Reeve of the Municipality, Acton, April 9th, 1936. 41-5

NERVES!

The human telephone system covering all parts of the body.

Have you forgotten you have nerves in your feet? When arches "go down" nerves are cramped by the bones of the feet. Because of the structure of the nervous system you get reflex actions to distant parts of the body. That's why weak shoes often cause trouble in legs, back, pelvis and other parts of the body. Weak feet can be strengthened up in HEALTH SPOT SHOES releasing cramped nerves; often relieving aches and pains of long standing. Don't make your whole body suffer by neglecting your feet. Come in soon and try on a pair of the famous HEALTH SPOT SHOES. You'll know immediately they are different!
