

Personals

Mrs. K. Phillips visited in Barrie over the week-end.

Mr. Mickey Holmes spent the Easter holidays with friends in Bobcaygeon.

Miss Marjorie Davidson, of St. Mary's, spent the week-end with Acton friends.

Mrs. H. T. LePage, of Toronto, is visiting Mrs. H. P. Moore at "Moorcroft."

Mrs. B. M. Wilson and Miss Lorraine Wilson, of Toronto, visited Acton friends over the week-end.

Miss Lucy Goldhamer, of Brampton, visited during the week-end with Acton relatives and friends.

Mr. and Mrs. Harry Griff, of Goderich, were week-end visitors at the home of Miss D. M. Worden.

Mr. and Mrs. Peter Greenwood, of Toronto, spent the week-end at the home of Mr. and Mrs. A. Anderson.

Mrs. A. T. Brown is visiting with friends in Toronto this week. Mr. Brown spent the week-end there.

Miss Evelyn Storey, Acton, has returned home after spending two weeks with her cousin, Miss Helen McCullough, of Kitchener.

Friends are pleased to learn that Miss Marguerite Symon was recovered sufficiently to be able to return home from the Toronto Hospital on Sunday.

Mr. and Mrs. G. H. Waterhouse, of Montreal, Que., visited at the home of his sister, Mrs. E. E. Kennedy, this week. They were en route to New Jersey.

Mrs. Peter Smith, Miss Pearl Smith, Mrs. Jas. Symon, Mrs. J. R. Kennedy and Miss M. E. Nelson spent two days in Hamilton last week, attending the annual Provincial Convention of the Daughters of the Empire.

The engagement—announced of Lorna Elizabeth—only daughter of Mrs. Kennedy, and the late Mr. Frank Kennedy, of Acton, to Mr. Joseph Nelson Field, son of Mrs. Field and the late Mr. Robert H. Field, Acton. The marriage to take place quietly in May.

MAN BURNED TO DEATH AT GUELPH

A mysterious stranger was sought by Guelph police in an effort to throw some light on the death of William Place, 55, war veteran and relief recipient, whose charred remains were found in his razed home—a dunned street car—Monday night, just outside Guelph. The stranger, described as a "tall man from London, with an inch-long beard," was reported to have been Place's constant companion in recent weeks; but no trace has been found of him since the fire.

Prince, Place's police dog, became crazed by the heat, in an effort to save his master, and had to be shot. The victim's body was found in the only bed in the improvised home, an overturned lantern beside it. The lantern is believed to have been the cause of the fire. The place was a blazing inferno when firemen arrived and nothing could be done to save the building. Coroner L. M. Salant has ordered an inquest.

JUST A SUGGESTION

Creditor: "For the last year I have been sending you this bill every fortnight."

Debtor: "Yes, suppose you leave off sending the bill and credit me with the postage and in time the bill will pay itself."

Good Gardening

Soil Level
Wet Moss Above Roots

Healing in roses.

If rose bushes arrive from the nursery before you have their bed prepared, do not leave them lying around wrapped. Unwrap them carefully keeping the moistened moss (in which they were packed) about the roots, and then "heel" the bushes into the ground, as shown in the above Garden-Graph.

"Heeling in" means digging or scooping out a shallow trench in loam soil, until the rose bushes in a horizontal position, leaving only a few inches of the top above ground. Cover the rest of the bush and its roots with soil and press down firmly. Protect the exposed top against sun and wind by covering over loosely with burlap. Leave roses "heeled in" until the roots have become dried out during shipment, but then to soak in a bucket of water over night before "heeling in" or planting.

The Public Health

CITIZENS ARE REQUESTED TO COMPLY WITH THE PUBLIC HEALTH ACT

Notice is hereby given that all residents of Acton are required forthwith to clean their cellars, drains, yards, water closets, outbuildings, and other premises, and remove therefrom all dirt, manure, and other substances which may endanger the public health, and to have the same collected by the twentieth day of May next, on which day the Sanitary Inspector will commence a general inspection.

All citizens are earnestly requested to keep their premises constantly clear and thoroughly disinfected.

C. H. HARRISON,
Deputy of the Municipality
Acton, April 29th, 1936.

Obituary

MRS. GEO. PEAVOY
A native of Acton, Mrs. Geo. Peavoy, passed away on Friday evening at her home in Palmerston. She had suffered a stroke the week previously. The late Mrs. Peavoy, whose maiden name was Rose Walker, was born in Acton on October 3rd, 1889, where her childhood days were spent. On September 17th, 1904, she was united in marriage to Mr. George Peavoy, of Guelph, where they lived for five years before going to Palmerston. She was identified with the United Church. Surviving are her husband, two sons, Herman and Cecil, and one daughter, Mrs. M. Ridgdale, 6th concession, of Wallace township. A funeral service was held at her home on Monday, at 2 p. m. with interment in the Palmerston cemetery.

WILLIAM WALLACE ALEXANDER
William Wallace Alexander passed away at his home in Kansas City, Missouri, April 22nd, in his 42nd year, having undergone a serious thyroid operation last November, from which he never recovered. Mr. Alexander was born in Nassagaweya Township and attended No. 9 school and later graduated from Augusta Military Academy, Port Denance, Virginia.

In 1916 he volunteered enlistment in Kansas City with the United States army, but was rejected on account of a crooked arm. Anxious to do his part, he re-joined with the Canadian forces in Kansas City and came to Toronto, where he was assigned to the 70th Overseas Battery.

Wallace Alexander was the son of Mrs. Alexander and the late William James Alexander. He is survived by his widow, Verda Babcock Alexander, his mother, Mrs. Janet Alexander; one brother, Fred Alexander, and four sisters, Mabelle A. Byerley, Louise A. Hawthorne, Mrs. A. Johnson, all of Kansas City, Mo.; and Jeanette, at home; and a sister, Ada A. Stoddon, who predeceased him 33 years ago.

The remains were brought to Acton for burial. Interment was made in Rockwood Cemetery, in the family plot.

W. J. DAVIS
The sudden death of W. J. Davis, at his home on John Street, on Monday, came as a shock to many friends here. For the past seven years he has resided alone. His wife and niece passed away twelve years ago. On Monday it was noted by his neighbors that he was not about as usual. Mrs. Chalmers and Mr. Thompson called about five o'clock and he assured them he was not ill. However, about seven o'clock Mr. Chalmers became uneasy and went to the home. Repeated knocking brought no answer, so the door was opened and Mr. Davis was found in his bedroom. He had suffered a heart attack and fallen to the floor. The family physician was called and he was given every attention, but passed away a couple of hours later.

William James Davis was a son of James Davis and Catharine Impson, and was born at Norwich, in Norfolk County, England, on August 11th, 1870. He came to Canada about twenty-five years ago and for a year or so worked on a farm in Nassagaweya. He then came to Acton and was employed by the Beadmore Leathers until seven years ago, when he retired. Twelve years ago, in January, his niece, Violet Davis, passed away and a week later the beloved wife, Lydia Lodge, died also. This double bereavement was a great blow. He was of a retiring disposition and his home life and ties had been his chief companionship. It was a bereavement from which he never recovered. He had no other relatives or friends that are known of either in Canada or the Old Land.

The funeral was held yesterday afternoon from the home of Mr. and Mrs. Chalmers, who had been his closest friends during these lonely years. The service was conducted by his pastor, Rev. Dr. E. M. Morrow, assisted by Rev. I. L. Bennie, and interment was made in Marlview Cemetery, Acton. He was a member of the United Church and the Sons of England. The pallbearers were Messrs. Thos. Morton, R. P. Watson, David Millitt, S. Husband, J. Avey and Fred Jiggins.

MRS. CLARA E. SPEIGHT-HUMBERSTONE
Following a lingering illness, Mrs. Clara E. Speight-Humberstone, research worker and author, died at the Toronto General hospital on Saturday, in her 73rd year. Her husband was the late Dr. Humberstone, one-time Reeve of York township.

An author of many scientific books, one of the latest called "The Mathematics of Immortality," dealing with the Einstein theory, is now in possession of an English publisher. "Believing that matter was chemically constructed, she contended that one must turn to chemistry in order to learn the secret of eternal existence.

Among her other works are: "The Spherical Bacterial Cell, the Constructor of the Earth and Her Cell-Life"; "Spiritism, the Hidden Secret in Einstein's Theory of Relativity"; "The Origin of the Chemical Elements and of Cell-Life"; and "Birds of Canada in Relation to Agriculture," the latter being used for nature study in schools. In addition, she wrote "The Spatial Origin of Man."

A member of the Astronomical Society of France, as proposed by Camille Flammarion, astronomer and physiologist, is said that on two occasions she came near to attaining the Nobel prize for her outstanding research work has led

Boy Scout News

At the last meeting of the Group Committee it was decided to issue a report of the year's activities and achievements. This report will soon be ready and in the hands of our supporters.

Jack VanGosson and Gordon Bilton are the two boys selected to attend the annual Forestry Camp at Angus over the week-end of May 24th.

It is unlikely that Acton will have an official entry at the Milton Jamboree. Scoutmaster Mason will be away and there is no one to take charge of an entry. However, seven boys plan bicycling down to Milton on their own to take in the event.

Plans are being made for the Annual Display, which is expected to take place the last week in May.

Friday night (to-morrow) a party of ten picked Acton Scouts, in full uniform, will act as ushers at the Guelph Guide and Scout Rally in the Winter Fair Building.

Another Police Chief Backs Scouting. Statistics show that the average age of the inmates of the penal institutions throughout the country is 19 years, and that the average education of inmates is the sixth grade in school. The above facts tell us that a few years ago those boys were of school age, and I believe to prevent crime we should study closer the conduct of our children in school today. Such organizations as the Boy Scouts, and others, do wonderful work in taking children at a dangerous age, which is about 13 years old, and keeping them busy with useful enterprises until they have reached an age where they realize their responsibilities. This is borne out by the fact that the number of boys and girls who have belonged to such organizations have been few and far between in our courts.—Chief of Police J. T. Owens, Roanoke, N.Y.

to many important discoveries, relatives say. In 1914 her "Origin of the Chemical Elements and Their Cell-Life" caused one of the directors of the Pasteur Institute in France to engage in research work with the result that bacteriophage was discovered.

Upon reading her treatise on "Bacteria the Constructor of the Earth," a London chemist engaged in experiments which proved the hydrogen atom possessed a unit weight in nature because there was only one active electron in its mass. She was also vitally interested in the "Right to Die" theory and claimed that mathematics could overcome all supernatural phases of opposition.

She is survived by a son, T. A. Humberstone, and one daughter, Mrs. Frank Mills, both of Toronto.

Mrs. Humberstone was a frequent visitor in Acton and was well known here. She was a sister of the late Thos. Speight, of Georgetown. The funeral was held on Tuesday afternoon, with service in St. John's Church, York Mills. Interment was made in St. John's Cemetery, York Mills.

LITERARY STUDY

The aim of literary study is not to amuse the hours of leisure; it is to awake oneself, it is to be alive, to intensely oneself capacity for pleasure, for sympathy, for comprehension. It is not to affect one hour but twenty-four hours.—Arnold Bennett.

In the march of life don't heed the order of "right about" when you know you are about right.—G. W. Holmes.

HERE ARE THE REAL FACTS ABOUT BRAN

Brought Out by Tests with Kellogg's ALL-BRAN

Some years ago, there was considerable difference of opinion regarding the use of bran. So to discover the actual facts of the case, the Kellogg Company asked for a series of laboratory tests at leading universities.

Experimental studies on a group of healthy women showed that the continued use of bran was thoroughly satisfactory. Undue enthusiasm, it did not lose its effect.

Other independent tests on men indicated that, with certain people, the "bulk" in bran was more effective than that found in frosts and vegetables.

Laboratory analysis proved that Kellogg's ALL-BRAN supplied vitamin B and iron as well as plenty of bulk. This "bulk" in ALL-BRAN is gentle in action. It absorbs a great deal of moisture, and cleanses the intestinal tract.

ALL-BRAN corrects constipation due to insufficient "bulk." It is the natural way—far better than using pills and cathartics. Serve as a cereal—or use in cooking. Sold by all grocers. Made by Kellogg in London, Ontario.

SPORTS

More Hambling Round in a Runabout

The Halton League is still an undecided quantity. Whether it will be Brampton or Millburg for the fourth team seems to be the sticking point.

Another annual meeting of the Hockey Club is called for tonight. We still think this is the right time of year to organize for hockey, and hope the business is completed.

The boys were able to get on the baseball diamond on Saturday — April 25th. Pretty good start for the grounds. Most a month ahead of the opening date.

"Minute" Walters has been appointed Manager of the team and the choice will be unanimous. Minute knows the game.

Can't be sure of having the baseball schedule for this week's issue. Seemed all set last Thursday, but it's sort of upset now. And we want it right when it's published.

The first arrangement would have the mid-week games commencing on June 10th, and Saturday games until that date.

Read of a nice neighborly spirit from Markdale. It seems Dundalk is endeavoring to erect an arena this year, and to help the project along the Markdale sports—a town fifteen miles distant—are staging a social event to raise funds for the Dundalk arena. That's co-operation all right.

Had a peek at the Y.M.C.A. circus program yesterday. It looks like the newest sort of show that has been attempted in Acton for some time. And varied—everything from the delicate touch of a boxer's glove to the strong arm wielded on the bow of a violin. Grunts, music, the artistic touch and the strong back all seem to have a place on this night.

NEW OFFICERS OF BUS COMPANY

Growth of System in Eight Years Reflects Credit on Management — New Summer Schedules in Effect Sunday

At the annual meeting of the Central Ontario Bus Lines, held in Toronto on March 26th, Mr. M. M. Payne was elected President and General Manager; and Mr. H. J. Rynes, Director and Secretary, continuing as Superintendent. Both these officers are well known in the field of transportation and have an intimate knowledge of all the requirements of maintaining a high standard motor coach service.

In 1928, when Mr. Payne became associated with Central Ontario Bus Lines, Limited, the Company had in operation nine coaches, which operated approximately 400,000 miles. To-day, reflecting the consistent expansion policy of the firm, it is estimated that in 1936 a fleet of thirty-three vehicles will operate approximately 1,250,000 miles in Ontario alone, regularly serving thousands of visitors and residents of Central Ontario. Illustrative of the tremendous popularity and the increased service of "Arrow" coaches, they carried on the vehicles more than 300,000 passengers in 1935. New, modern equipment, plus the same superlative service, comfort, courtesy and safety—further prove the "Arrow" motto, "For your Convenience."

Announcement is also made of three new coach services. One between London and Hanover; an extra round trip on the Toronto-Kincardine route and an added trip between Toronto and Hanover. Effective on June 20th the schedules to the summer resorts will be in operation.

HALTON PLOWMEN PLAN FOR 1936

At an enthusiastic meeting of the directors of the Halton Plowmen's Association, held in the Agricultural Office, Milton, on Saturday evening last, plans were made to hold a Junior Farmer Plowing Match and Demonstration in Milton district on June 6th. The match will be open to boys under 20 years of age, providing they have not plowed previously at the International. We understand from President L. W. Chisholm that separate classes will be provided for each Township and prizes will be awarded to all contestants. This match is for the specific purpose of encouraging beginners and it is expected M. G. McLeod, the noted plowman, from Waterloo County, will be on hand to coach and demonstrate. We also learned that the Halton Directorate is leaving no stones unturned to help the boys and is prepared to furnish teams for those coming from a distance. Tentative plans were also made for the County Match, in the fall. The date has been set for November 6th and it is anticipated that the event will be held in Nassagaweya Township.
