EONARD SHOULDICE and his mother, Mrs. W. J. Shouldlee, Shallow Lake; Ontario, went into partnership on the poultry end of the farm business this epring and ordered 1,000 Barred

Rock Chicks. Not only ordered, 1,000 - but RAISED 1,000. The 15 "extras" completely covered their losses. At 9 weeks, 28 of the biggest cockerels averaged 2% lbs. At 10 weeks they sold 200 more cockerels -averaging 214 lbs. "We never had chicks live and grow like this before," says Mrs. Shouldice. That's what a great many people

have said after ruising Bray We believe it's what YOU'LL uny, too. With high vitality, fast growing, early maturing stock of that kind, there is no reason why June chicks.

should not develop into profit makers. On the other hand, for June chicks to develop into profit makers you NEED high vitality fast growing, early maturing chicks of that kind - the Bray kind. Our special "end of season" prices are most attractive.
