The LETTER BOX

Dear Press Pass:
My weekly letter did not appear in last week's paper for very good reasons— inability to write. Dr. McCullough thought I had sufficient strength to return home from the hospital, and I didn't prove to have sufficient, and had a relapse, which nearly took my life, for the third time this spring. But, with careful nursing, perfect quiet, etc., I am again able to read and write a bit, if of either at once, but time is no object, so I manage quite a bit.
I appreciated so much a bunch of Literary Digests, so kindly sent me by a friend. They provide plenty of food for thought.

If any of my readers happens to be a subscriber to the Geographic Magazine, and has past copies, with no further use for same, I would appreciate having them. Trust this is not begging. Looking over my issue of THE PRESS PASS I see weather conditions have changed and your district got a nice rain, which can't fail to help the poor withering vegetation.

I think it must have been fairly general, by all accounts. While there have been no fires within miles and miles of where we live, fires have ravished miles of valuable timber and property again this year, and caused untold suffering among pioneers and settlers. So everyone has the rain to be so thankful for.

Vegetation in our part never had a brighter appearance. There has been no real drought here. As I mentioned previously, in spite of the heat we had showers protecting the ground against drought. Strawberries have been an abundant crop, and blueberries, just commencing, and although no very extensive hunting has been made yet, the outlook seems good. We have had a nice taste, gathered from just around home.

The wild strawberries were very plentiful and a lovely sample, but very few were gathered by our family, on account of four nice rows I brought from Limehouse and planted last year and which have produced so abundantly it kept them busy right at home to look after. Abundance has been picked for home use, and some to dispose of, at good prices for other necessities needed. We have new potatoes ready to use, but must finish up the few old ones first. So that will give folk an idea of the wonderful growth.

Roads are giving both tourists and Northerners plenty of food for thought these days, with so much traffic. And we Northerners are getting very angry at the way the Government have used us in connection with the spending of so many millions of dollars and not putting any of it on our Ferguson highway. And not even doing the necessary maintaining to keep up the surface already established. True, there are a few spots fit to drive on, but it would be a bad plug without some good points. With the weather and resources of the country and the need for a really good road in such evidence, and the fact being so well known, one wonders at such neglect. A recent issue of the Northern News compiled a statement from their own town and Township, which is outstanding. Mr. Alex. Pullon, issuer, announced that up to Monday morning, July 20th, licenses had been issued for 2,820 cars and 391 trucks, totalling \$52,608; and that these same motorists have paid out \$63,000 in gas tax. Not counted in the revenue to the Province, from this one district alone, 2,623 operators' permits; 647 instruction permits; and 252 chauffeurs' permits has been issued. An estimate on the gas consumption for Tack Township was made just for the open season, which is not for twelve months in this country, and 1,050,000 gallons was considered a very conservative estimate. So why shouldn't we have good roads, when this tremendous revenue is going out of one locality, beside all the rest which has not been compiled, but would build up a tremendous total. To become a bit personal again, I

miss the Limehouse news this week. I presume the correspondent is away on holiday. I have sure had mine, but in a different way. Two months on July 20th, in bed. But why worry? While there's life there's hope, so we're told.
We had an agreeable surprise visit on Friday. The wife's mother and brother landed in for a few days' visit. They haven't said how long, but are so surprised and pleased with the sights they have seen so far. Frank is off now with some of our bunch (they can't all go at once) to hunt blue berries and see sights.
As I am able I'll try and continue my small contribution.
Sincerely,
H. W. JOHNSON.

"The functions of Government must be readjusted from time to time to restrain the strong and protect the weak."
Herbert Hoover.

OFFICE-WORKER HELPED BY NATURAL LAXATIVE FOOD

ALL-BRAN Corrected Her Constipation

Here is her voluntary letter: "For years I was a sufferer from constipation." It was necessary to take a laxative every night before retiring. I was an office-worker, and did not get much exercise.
"Some one told me that ALL-BRAN was a good remedy for constipation." I bought a box, and found that it helped my condition. Since then I have not had to invest in laxatives."—Mrs. Margaret Jones (address upon request).

Scientific tests have shown that Kellogg's ALL-BRAN corrects constipation safely and pleasantly. This delicious cereal supplies mild "bulk," as well as vitamin B and iron. Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor.
Wouldn't you rather enjoy this natural food than abuse your system with harmful pills and drugs?
Protect your family from the dangers of common constipation. Serve ALL-BRAN regularly for regularity. Either as a cereal with milk or cream, or cooked in tempting muffins, breads, etc. Recipes on every package.
Sold by all grocers. Made by Kellogg in London, Ontario.
*Constipation due to insufficient "bulk" in meals.
