Mr. Harold Elliott spent the week-end at his home in Comber.

Mr. F. Roney, of Toronto, called on friends in town last week.

Mr. Frank Spielvogel, of Wingham, was here for the holiday.

Mr. and Mrs. G. H. Brown visited over the week-end in Toronto.

Mr. Bob Chalmers was home from Wingham for the holiday.

Rev. and Mrs. H. L. Bernie and family are holidaying at Wlarton.

Mr. Wm. McNabb, of Toronto, visited Acton relatives and friends.

Misses Ruth and Marjorie Gibson are holidaying this week in Grimsby.

Mr. Stuart Lantz holidayed with relatives in Detroit over the week-end.

Mr. and Mrs. J. H. Reed are holidaying in Muskoka, at Point Au Baril.

Mr. and Mrs. George Cook, of Wingham, visited with friends in Acton.

Miss Dorothy Phillips is visiting with relatives and friends in Hamilton.

Mr. A. D. Herbert, of Capreol, Ontario, visited in town on Wednesday.

Mr. and Mrs. John Morton visited over the holiday week-end in Buffalo, N.Y.

Mr. Harold Skilling, of Toronto, visited with friends in town during the holiday.

Mr. Gordon McDougall, of Toronto, visited with friends in town on Monday.

Misses R. Hall and F. Kelly, of Wingham, were in town during the week-end.

Mr. and Mrs. Nell McDonald, of Kitchener, visited Acton friends on the holiday.

Mr. and Mrs. Frank Browning, of Toronto, visited with their sister and brother here.

Mr. and Mrs. J. M. McDonald and Miss Urana are holidaying near Bracebridge.

Mrs. Kenneth Matthews, of Belleville, is visiting at the home of Mr. and Mrs. J. N. Reid.

Misses Dorothy McPherson and Mary Chalmers are holidaying at Loon Lake, in Muskoka.

Mrs. Hill. Lasby and Miss Annie Lasby spent holidays with Mr. and Mrs. W. Wells, Toronto.

Misses Isabel and Nellie Anderson and Wilma and Dora Hansen are holidaying at Grimsby Beach.

Misses Colin McNabb, Jack Reid, Gordon Cook and Allan Marshall spent the week-end in Detroit.

Mr. and Mrs. W. Footitt and Dorothy left last week to visit friends and relatives in South Porcupine.

Misses F. Winters, G. Footitt, C. Waterhouse and H. Hodgins journeyed to Muskoka over the holiday.

Mr. and Mrs. Wm. H. Fryer and Misses Joan and Dorothy, of Toronto, spent the holiday with Mr. Wm. Fryer.

Miss Norma Hardon and Mrs. Doree Patton, Toronto, spent the holiday with the Misses Ranshaw, Peel Street.

Mr. Bing Ramsden and Miss Jessie Young are holidaying with Mr. Ramsden's parents at Munce, Indiana.

Mr. and Mrs. Earl Brown, of Kitchener, spent a few days at the parental home, with Mr. and Mrs. G. H. Brown.

Mrs. P. Kennedy is leaving on Saturday to spend a month with Mr. and Mrs. Jack Kennedy and family, Detroit.

Mr. and Mrs. Wm. Mainprize, Miss Mahnie Mainprize, Masters Elmer and Jack Mainprize are holidaying at Bass Lake.

Misses Winnifred Revoy and Betty Swindelhurst, of Toronto, spent the week-end at the home of Mr. C. M. Hansen.

Mr. and Mrs. Eugene S. McPherson and babe of Toronto, visited at the home of his parents, Mr. and Mrs. R. J. McPherson.

Mr. Harold Swackhamer left to-day to take over the duties in connection with the funeral home he has purchased in Hamilton.

Mr. W. J. Ribberdy, of Detroit, Mich. who had been visiting Miss Frances Kenney for a month, returned home last Saturday.

Mr. and Mrs. Ross Swackhamer, Nadine and Jean, of Toronto, were visitors at the home of Mr. and Mrs. A. Swackhamer.

Mr. and Mrs. Alfred Butcher and Mrs. White of Oshawa, and Mrs. Alfred Wadde, of Milton, called on Mrs. Scott on Sunday.

Mrs. Allan Smith, Waukena and Harold are holidaying at the summer home of Mr. and Mrs. Roy Wansbrough, on Lake Simcoe.

Mr. and Mrs. H. L. Unwin, Master Bruce and Harold Barber, of Rochester, spent the week-end with Mr. and Mrs. Arthur Swackhamer.

**Correction of Constipation Is Often a Matter of Menus**

For years, the medical profession has insisted that proper diet is more effective in promoting health than the indiscriminate use of patent medicines. Today, they are seeing their teachings bear fruit.

For instance, millions of families have learned that common constipation is largely due to insufficient "bulk" in meals. Many of them correct this condition by the regular use of Kellogg's All-Bran.

This delicious cereal supplies generous "bulk" in effective form. Within the body, its "bulk" absorbs moisture, and forms a soft mass. Gently this clears out the intestinal wastes.

Kellogg's All-Bran also supplies vitamin B and contains iron. It may be served as a cereal with milk or cream, or cooked into tempting muffins, breads, etc.

Two tablespoons daily are usually sufficient. Stubborn cases may require All-Bran oftenier. If not relieved this way, consult your doctor.

Kellogg's All-Bran is not a "cure-all"—but it does correct common constipation. It is guaranteed by the Kellogg Company. Sold by all grocers. Made by Kellogg in London, Ontario.

*Constipation due to insufficient "bulk"*

**YOU NEVER KNOW**

The office-seeking politician climbed aboard his soap box. He had picked a tough spot, right in the centre of a rowdy East Side section. He held up his hand for silence.

"Ladies and gentlemen—the began. From all parts of the audience there came a loud razzing. The politician stepped back.

"I'm sorry," he apologized. "I didn't mean to insult anybody!"

Rev. and Mrs. P. A. Sawyer and daughter, of Caledonia, spent a few days in the former parish here, and renewed acquaintances.

Mr. and Mrs. Ernest Coles and family, of Brimley, visited with Acton relatives and friends over the holiday. Hartley and Joan are remaining for holidays.

Mrs. P. Kennedy, Mrs. R. H. Reid and Miss Laura Reid of Acton, and Mrs. Y. I. McLaughlin, of Toronto, had an enjoyable trip to the Thousand Islands last week.

Mr. and Mrs. J. C. Matthews and Miss Helen Olander have returned from a five-week trip through Colorado, New Mexico and Texas. While in Texas they attended the Texas Centennial Exposition at Dallas.

Friends will be pleased to learn that June Tubot, daughter of Mr. and Mrs. W. D. Tubot, who was operated upon yesterday for the removal of tonsils, was able to return home to-day, and will wish her a speedy recovery.

The engagement is announced of Florence Lenora, eldest daughter of J. E. Kellington, of Rockwood, and the late Mrs. Kellington, to George Edwin Watson, only son of Mr. and Mrs. Robert Watson, of Nasagaweya, the marriage to take place quietly the latter part of August.

Mr. and Mrs. Henry Bauer, 10708 Union Avenue, Cleveland, Ohio, formerly of Acton, Ontario, announce the engagement of their only daughter, Margaret Beatrice, to Mr. Edward J. Tubauk, son of Mr. and Mrs. John Tubauk, of Cleveland, Ohio. The marriage will take place the latter part of September.

## Juveniles Give Baseball Thriller

(Continued from Page One)

brought in four runs, with none out. However, the darkness was the big cause Milton getting their run. As the inning wasn't completed, the game reverted back to the sixth, with the score 10-4.

Acton ..... 023 32 0-10 10 3  
Milton ..... 000 004-4 4 1

Batteries—Gordon and Lambert; Cox, Patterson and Lamb.  
Umpires—N. Morton, plate; Hayward, bases.

Acton Juveniles won a one-sided baseball game by a score of 16-0 when the Georgetown team played in Acton on Tuesday night last.

Don Ryder gave a fine exhibition of pitching. He struck out ten batters and allowed but three singles and three walks. Errorless playing behind him left five Georgetown players stranded, the only being thrown out at home plate.

Kempstead started on the mound for Georgetown and faced five batters. He failed to be wild, he was switched shortstop, Chapman taking over the pitching task. Bayliss, Holmes, Marso and R. Ryder each had a three-base hit. Four Acton boys struck out and five got walks. One was left on the paths. The visitors were wild in their throws to the bases at times. With two out in the last of the fifth frame, the game was called on account of darkness.

The teams:  
Georgetown—Goldham, lb; Stapleton, 3b; Cole, 2b; Chapman, ss; Kempstead, p; as; Loonen, lf; Stockford, cf; Johnston, rf; McNeven, cf.  
Acton—Marso, 2b; Jones, lb; Bayliss, cf; Woods, c; R. Ryder, 3b; Lambert, ss; Elliott, lf; Holmes, rf; D. Ryder, p.  
Georgetown ..... 000 00-0 3 6  
Acton ..... 610 27-16 13 0

**1935 APPLE CROP WAS PROFITABLE**

According to the latest report on the Canadian apple crop, issued by the Fruit Branch of the Dominion Department of Agriculture, the Canadian apple crop in 1935 is estimated at 4,527,700 barrels as compared with 4,257,400 barrels in 1934, an increase of approximately four per cent. The aggregate value however, increased approximately 38 per cent., namely, \$12,452,100 in 1935 as compared with \$9,182,900 in 1934. The average barrel was \$2.89 as compared with 2.15 in 1934.

The Nova Scotia crop was unchanged over the previous season, while in British Columbia a slight decline from the heavy yield of 1934 was recorded. Both the Ontario and Quebec crops made appreciable increases over low yields of the previous year resulting from frost injury. New Brunswick production was also slightly higher. The quality of the crop generally was good, particularly in Nova Scotia, although an early frost in British Columbia caused considerable damage to the late varieties. The season as a whole, says the report, has been quite satisfactory and undoubtedly the most profitable of recent years to both grower and dealer.

Exports of Canadian apples during the 1935-36 season expressed in terms of barrels totalled 7,234,342 as compared with 7,061,768 barrels during the previous season. Of these totals, 96 per cent. and 88 per cent. respectively were shipped to the United Kingdom markets. Conditions on United Kingdom markets during the past season were generally much more favorable than those prevailing during the past few years.

**ONTARIO'S MANUFACTURES**

Ontario is the most important manufacturing province in Canada; a position which has been maintained over a long period of years. It also has the greatest diversification of manufacturing production of any province. The outstanding industry is the manufacture of automobiles, which is confined almost exclusively to this province. Of other products manufactured in the Dominion as a whole, Ontario factories supply 35 per cent. of the agricultural implements; 88 per cent. of the production of leather tanneries; 81 per cent. of rubber goods, including footwear; 61 per cent. of furniture; 69 per cent. of fruit and vegetable preparations; 79 per cent. of electrical apparatus and supplies; 65 per cent. of castings and forgings; 62 per cent. of primary iron and steel products; 65 per cent. of hosiery and knitted goods; as well as 83 per cent. of the output of flour and feed mills.

Manufactured products of Ontario 1934 had a total value of \$1,255,265,000, an increase of almost 25 per cent. over the previous year. Establishments in operation numbered 10,322 representing a capital investment in fixed and current assets of \$2,063,731,000, and employment was provided for 259,621 souls, to whom salaries and wages totalling \$270,834,000 were paid.

**DONT-BREAD MISTAKES**

There is something to be said for the fool who steps in where angels fear to tread. At least he learns a lesson which will make him less of a fool than he was before. The man who never makes a mistake never makes anything. It is far better to appear ridiculous a few times and thereby gain valuable experience, than it is to hide all our lives behind a false modesty, and while maintaining our outward appearance of wisdom, reveal our fools to our death. Probably Blake had this thought in mind when he wrote: "If the fool would persist in his folly he would become wise."—O. T. Miller.

## THE STUCKEY WOODS WEDDING

A very pretty wedding was celebrated at St. Patrick's Anglican Church, Stuyvesant on Saturday, when Ethel Stuckey, daughter of Mrs. Woods and the late George Woods, of Acton, was united in marriage to Mr. Frederick Stuckey, son of Mrs. Stuckey and the late William Stuckey, also of Acton. The Rev. Mr. Potts performed the marriage ceremony. The bride looked lovely in her wedding dress of Powder Blue Chiffon, with white accessories. Her maids were in uniform of lily-of-the-valley and ecru. Mrs. Norman Robinson acted as matron of honor, wearing pink chiffon, with white accessories. Mr. Norman Robinson acted as best man. The bride and groom left immediately after the ceremony, travelling by motor to various points, returning to Acton on Wednesday. A late reception is being held at the home of the bride's mother, when a number of friends will gather to welcome the happy couple.

## MARRIED AT SOUTH PORCUPINE

Miss Lorraine Smith, daughter of Mr. and Mrs. Owen C. Smith of South Porcupine, was married to Mr. A. J. (Bert) Gibbons, formerly of Acton, yesterday. A church ceremony marked the wedding.

Prior to her departure for South Porcupine, a presentation was made to Miss Smith by her fellow workers in the packing and carting department of the Northern Rubber Company. Miss Mary Darnell made the presentation of a silver basket, filled with gloves, and Mr. Jack Billing read the following address:

Dear Lorraine:  
We, your fellow workers of the packing and carting department, are gathered here to extend to you our heartfelt wishes for your future life. Your sunny disposition and cheerful, willing spirit will be missed by us all. We wish you to accept this little gift as a remembrance of our love and good wishes for you.

Signed by her fellow workers.

**HAROLD SWACKHAMER HONORED**

Last Friday evening the members and friends of the Churchill Orchestra gathered as a surprise party at the home of Mr. and Mrs. Arthur Swackhamer, Churchill, in honor of the approaching marriage of their eldest son, Mr. Harold Swackhamer. The evening was spent in games, contests, etc. Following a pseudo presentation, Harold was presented with an address, read by Mr. Charles Kenner, and an electric table lamp, on a crystal stand, presented by Mr. Arthur Kerr.

Dear Harold:  
It is with joy and mingled feelings that your friends and colleagues greet you around to offer our best wishes and good will, which are due you as a valuable and efficient chocolate cake-eating member of our class.

You, Harold, have proven yourself, through your untiring efforts and ever-willing hand, a sincere friend.

We rejoice in that you are setting out upon a new sphere in life and in your new home we wish you the finest assets that life can give. We regret in that you are severing your associations with us, but we know that others will greatly benefit by it.

Accompanied with good wishes, we ask you to accept this little gift as a token of our love and may it ever remind you of the bright and happy hours spent in our midst.

The Friends and Members of the Churchill Orchestra.

Lunch was served by the ladies, followed by a sing-song, which concluded a most enjoyable evening.

**COPPER WORTH MONEY IN GOLD**

Copper is really worth its weight in gold because of its many important and valuable uses in industry. As a result of its great powers of resisting corrosion copper is frequently found in its "native" state, and was, therefore, probably the first metal to be used by man. Thousands of copper workings, dating back possibly as far as 6000 B.C., have been found in Phoenicia and Egypt, and the evidence suggests that the art of smelting copper probably originated in the valleys of the Tigris and Euphrates, said to be the site of the earliest civilization in Mesopotamia below the level of the clay deposit left behind by the Great Flood, which is believed to have occurred about 4000 B.C. It is probable that the first smelting of copper originated from the discovery of beads of metal which had leached from mines used by primitive man. No doubt this process, discovered by accident, was soon developed deliberately, as there is evidence that the first smelters constructed their furnaces on the windward side of hills, with a trench to act as a draft, in order to get a good draft. The first smelted copper produced is used in the electrical industry and about one-third in ship-building.

**A LITTLE CROSS-EYED**

Hoecker: "Nigger, what's de matter, cross-eyed person you 'wherry seed?"  
Gingerbread: "Old Demetrius Paganini grease. Dat nigger kin see in de sun watch you 'wherry seed?"  
Hoecker: "De troubleder-see-see, Gaster-balt! Dat nigger is cross-eyed he 'dean need but one glass in his spectacles."

## MORE COMPETITION IN DAIRY PRODUCTS

New Zealand is no small factor in the sale of primary products in the markets of the world and offers strong competition to Canada in dairy commodities. It is therefore interesting to all Canadians, particularly those connected with the agricultural and dairy industries, to note that at the present time there is a bill before the New Zealand Parliament which will make the Government the owners and distributors of all primary products. According to the preamble of the bill, which is known as the Primary Products Marketing Act, the aim is "to make better provision for the marketing of dairy and other primary products, so as to ensure for producers and adequate remuneration for the services rendered by them to the Community," but the main provisions of the bill are to enable the Government on behalf of the Crown, to acquire ownership of such products and fix the price from time to time. With regard to products intended for home consumption, the Government would be empowered at its discretion either to acquire ownership at fixed prices or to control the sale and distribution.

As it is not considered feasible to deal forthwith with all primary products, a start is to be made with dairy products. To bring this about, it is proposed to establish a Department of State, to be known as the Primary Products Marketing Department and to be charged with the special duty of marketing all primary products in which the Government has acquired ownership or over which the Government has assumed control. All the officers of the Department are to be drawn from the highest experts in the field. After the passing of the Act, no contract for the carriage by sea of any primary product intended for export can be made except by the Minister of the Department or by his approval.

**A LOT OF PRACTICE**

Tenderfoot: "Did you have to have a lot of practice before you could shoot the ashes from the cigar in the mouth of a man standing 50 feet away, as you do in your Wild West act?"  
Two-Gun Bill: "Practice? I should remark. I guess I pulled a couple dozen Chinamen while I was learnin' that there little trick."

## THE CANADIAN RASPBERRY

Canada's most widely distributed native fruit is the raspberry. It is found growing wild from the Atlantic to the Pacific and as far north as the mouth of the Mackenzie River. It is easily the most important bush fruit, grown in Canada and in 1935 the commercial crop of more than seven million quarts exceeded the value of all other fruits, with the exception of apples, strawberries and peaches. In addition to the commercial production, large quantities of raspberries are grown each year in farm and city gardens where they do very well and provide an abundance of luscious fruit. Raspberries are cultivated in all provinces of the Dominion but the chief centres of production are in Ontario, Quebec and British Columbia.

While much of the Canadian raspberry crop is consumed as fresh fruit, considerable quantities are used by the canners and jam manufacturers, and a goodly number are "put down" by the housewives to reappear on the table during the winter months. Some idea of the extent to which raspberries are being planted each year will be gained from the fact that last season's sales of raspberry plants reported by commercial nurseries reached the million mark. In addition, many plants were propagated and planted out by commercial growers and home gardeners.

## GREGORY THEATRE

**FRIDAY, AUGUST 7th**  
"LOVE ON A BET"  
Romantic comedy, starring Gene Raymond. Colored musical, "Pirate Party on Catalina Island." Sport, "What's the Answer?" Chapter 8 of "Rex and Rinty."

# Our Obligations To Our Community

As your editor we have assumed certain obligations and responsibilities which we are striving faithfully to discharge. We are in perfect accord with the code, given below, which another editor has penned to his readers:

"The first obligation, as I conceive it," said this editor, "is to give the news of the legitimate territory in which the newspaper is circulated.

"The second obligation is that of cleanliness. It should be morally clean, suited and appealing to the young as well as to the old.

"The third obligation is that of courage. It should be fearless in the expression of righteousness, in the espousal of justice, in the defense of the weak.

"The fourth obligation is the obligation of consistency. Knowing the position of a newspaper to-day, one ought to be able to tell its position of yesterday and where it will stand to-morrow.

"The fifth obligation is to furnish intelligent comment on the items of news which have an important bearing on public opinion or public morals.

"The sixth obligation is to help protect the community from imposition, from fraud, from danger.

"The seventh obligation is leadership.

"The eighth obligation is service. It serves as a community advisor, the source of first aid, the benevolent philanthropist, the uplifter, the civic booster, the big brother of the neighborhood.

"As the ninth obligation, I would place ideally above all things."

We are striving to give this community a home town paper which will measure up to a high standard when subjected to the tests of each of these obligations.

**Your Country Weekly is of, by and for your Home Community**
