

Notices of Births, Marriages and Deaths are inserted in this column without charge. In Memoriam Notices, 50c and 25c per line additional for poetry.

Neighborhood News

Milton

Milton reverted to Standard Time on Monday, Labor Day, at midnight.

Mrs. Geo. Peacock, Miss Ruby Peacock, and Arthur Peacock spent a very enjoyable week at Lindsay and points east last week.

On Friday Miss Aileen Hlyer entertained informally at a miscellaneous shower, honoring Miss Ivy Bundy, a bride-elect of this month.

Miss Laura Chisholm and Thomas Court, of Milton, were among a party of tourists who were on an enjoyable two weeks' motor trip to Montreal, and through the Adirondacks in the United States.

The tax rate in Nelson Township remains unchanged, according to the action of the Nelson Township Council on Tuesday, when the rate was struck at 20 mills. C. E. Wood, Relief Officer for the Township, stated he had only one registration for relief.

Mr. and Mrs. Sherwood T. Coulson, Lowville, Ontario, announce the engagement of their only daughter, Mary Cellata, to Mr. John Robinson Anderson, youngest son of Mrs. Anderson and the late Robert Anderson, Milton, the marriage to take place in Lowville United Church on September 19th.

Varicolored gladoll decorated the home of the bride's parents Saturday for the marriage of Clara Douglas, younger daughter of Mr. and Mrs. John L. Hardy, Milton, to Dr. David Colin Heggie, son of Mrs. Heggie and the late Dr. David Heggie, of Brampton. Rev. Adam B. Irwin officiated and the wedding music was played by Miss Marion Wood, of Guelph.—Champion.

Burlington

Misses Jean Letich and Ethel Holtby left on Sunday on a motor trip to Ottawa, Montreal and Quebec.

Mrs. Percy Winn and daughter, Helen, returned home on Saturday from a week's holiday in New York City.

About 8:45 Wednesday morning James, the eight-year-old son of Mr. and Mrs. Kenneth Sheppard, Freeman, was hit on Brant Street, while on his way to school, by a car, driven by Peter Toth, Freeman. The lad, fortunately, escaped with lacerations to his hand and suffered internal injuries.

On Thursday last, Hughes Cleaver, M. P., received word from Ottawa that the Department had decided to wreck the Brant Military Hospital and that tenders would be advertised for the job in the near future. The "Hotel Brant" was built over thirty-seven years ago, and during the war it was purchased from A. B. Coleman by the Government for a military hospital. Since it was closed for that purpose, over fifteen years ago, it has gradually deteriorated until it is practically useless for occupation.

MINES LABORATORIES BUSY

Reflecting the steady and widespread improvement in mining throughout Canada, the Mines Branch Laboratory of the Canadian Department of Mines reports that receipts of gold ore for testing during the first half of the year exceeded those of any like period in past years. In the majority of cases the ores are from the many gold properties throughout Canada that are entering or nearing production. Full advantage is being taken by operators of the modernly equipped ore dressing and metallurgical laboratories of the Department of Mines, where the ores are being tested mainly to determine suitable mill treatment processes for the several enterprises.

Three research projects relating to the treatment of gold ores are underway. One is on refractory gold ores such as those that occur in the Bridge River area, British Columbia. The second is an investigation to determine the relationship of the mineralization and genesis of the ores to treatment problems; and the third is an examination of the modes of occurrence of gold in sulphides, and the effect on ore treatment of such associations.

More test work is under way on base metal ores than in 1935, but the number of samples received is small in comparison with pre-depression years, when the high prices of the metals provided a stimulus for exploratory effort. A notable feature is the sharp increase in the number of requests for test work on non-metallic ores. The increase is traceable mainly to the distinct revival of activities in the building construction industries. Tests are being carried out of the beneficiation and uses of such minerals as china clay, silica sands and sandstones, quartzite, calcite, garnet, and mica, and on the talcums from asbestos milling plants.

Obituary

MONTROSE

DAVID YOUNG, Guelph. An educationist with a length of service seldom equaled in the Dominion, David Young, who for 50 years served the schools of Guelph, died last week-end at his summer home at Muldrew Lake, Muskoka.

Mr. Young, Supervising Principal of the Guelph schools at the time of his retirement a few years ago, was the last of a trio of noted teachers who between them held a record unique in the Dominion. The others were the late Dr. William Tyler and James Davidson. All three served in varying capacities for more than 50 years in Guelph schools, and when they retired some years ago, were honored at a testimonial dinner at which former pupils from all parts of the world were present.

Born in Prince Edward County, Mr. Young started his teaching career there. Going to Guelph about 1886, he was attached to the staff of the old Collegiate Institute. In 1888 he was appointed Principal of the separate schools, and in 1903 named Supervising Principal of all the schools in the city.

Mr. Young was a pioneer in the work of the Ontario Educational Association, an organization in which he was keenly interested, and of which he held the Presidency in 1904.

A member of the United Church, Mr. Young held office in Chalmers Church for many years. He was a Mason, and a Past Master of Speed Lodge, and of the Scottish Rite. He was co-author of a number of text books, many of which are now in use.

Surviving are one son, Gordon Young, Secretary of Montreal Young Men's Christian Association; and two daughters, Mrs. John Anderson, of Edmonton; and Hazel, of Cleveland. The funeral was held at Guelph on Wednesday afternoon and was largely attended.

NOT MUCH ON THE PLAY. "See here, you're seven payments behind on your banjo." "Well, the company advertised 'Pay As You Play,' and I can't play much."

J. Cadesky OPTOMETRIST

WILL BE IN ACTON ON Monday, Sept. 14th. Anyone suffering from Eyestrain, Defective Vision or Headache should not miss the opportunity of consulting this eyesight specialist. Appointments may be made with Mr. A. T. Brown, Druggist. CONSULTATION FREE. Office Hours: 9 a. m. till 4 p. m.

FLYING PRIEST READY FOR ARCTIC FLIGHTS

Preparing to inaugurate flying missions in Canada's north, Father Bernard Schulte (ABOVE) flew to Toronto from Detroit in his new "flying ambulance." Father Schulte, famed "flying priest," celebrated the first aerial mass aboard the German zeppelin Hindenburg on its maiden flight.

SPORTS

More Rambling Round in a Runabout

We hasten to correct an error of last week. We were all wrong in that umpire mix-up.

Milton did not secure the decision. The third umpire, they were responsible for bringing to the game was assigned to third base, and the same two officials acted as at the previous game.

Milton met Ingersoll on Saturday, and although they lost, it was a pretty flimsy win for Ingersoll.

While Brush argued, the winning run stole home from third base.

Up at the bowling greens and tennis courts some fine tournaments and games have been held. The one last Thursday drew bowlers from a wide area.

But sweater coats are more in evidence than shirt sleeves here these nights.

The Y. classes are booked to open on Monday next and Secretary Geo. Emery is making the program interesting for all groups.

Matter of fact, the group that are to put on the event for the Fall Fair have been working on their program for several weeks. Mr. Butler and some of the boys from Guelph Y. are of great assistance in this program.

It looks as if a Basketball League would be a feature of the Y program this year.

And even at this date, there are rumors of hockey. There are several from other points who have made enquiry about lining up with the Acton team.

They haven't drawn much interest locally, because the team of last year is intact and with the home coming of Ello Marzo, everybody thinks the team is good enough to take what they mixed by an eye-lash last season.

Anyway, the fans would sooner see the team they know take the ice again this year under Acton colors.

FALL FAIR DATES

Table listing Fall Fair dates for various locations: ACTON (Sept 22-23), C. N. E. (Aug 28-Sept 12), Caledon (Sept 18-19), Fergus (Sept 18-19), London (Sept 14-19), Mount Forest (Sept 15-16), Orangeville (Sept 15-16), Galt (Sept 25-26), Grand Valley (Sept 25-26), Milton (Sept 25-26), Brantford (Sept 29-30), Georgetown (Oct 2-3), Aberfoyle (Oct 6-7), Streetsville (Oct 10), Woodbridge (Oct 9-10-12), Bolton (Oct 16-17), Erin (Thanksgiving Day).

TEN-MILE BRIDGE PLANNED

Construction in Denmark of the two longest bridges in the world is outlined. Three engineering firms have submitted plans to the Minister of Public Works in Copenhagen. The cost of the proposed structure is estimated at \$135,000,000. One bridge, about nine miles long, would link Denmark with Sweden. The other, stretching more than 10 miles, would cross the Store Belt and be part of a project to construct a motor road linking Copenhagen with Esberg, a steamer terminus. Engineering firms that are building the Storstroms Bridge, the world's longest at present, are helping with the Denmark bridge plans.

ONTARIO ENFORCES BUTTER GRADING

Legislation has been passed by the Ontario Government which provides for the compulsory grading of all creamery butter sold to consumers in the Province of Ontario on and after September first of this year. Regulations providing for the grading of butter for domestic consumption were introduced by the Dominion Government during 1934, but they were not compulsory until enabling legislation was passed by the provincial governments. This was done in the four western provinces—Manitoba, Saskatchewan, Alberta, and British Columbia—more than a year ago. Now Ontario has followed suit, and it is expected in the course of time in the four remaining provinces in which creamery package butter is not sold by grade the necessary legislation to make these regulations effective will be passed.

The grades as provided by the regulations are first grade, second grade, third grade and no grade. The grade must be marked on the wrapper and on the carton. The marking of false, misleading or exaggerated claims with respect to the quality of butter or any other dairy product, whether such claims are made by advertisement or on the package, is prohibited.

Canadian butter is noted for its high quality, and Canadians are notable butter consumers, ranking among the largest users of butter in the world. Out of 1,264,977 boxes of pasteurized butter graded from December 2nd, 1935, to August 1st, 1936, first grade was awarded to 1,061,937 boxes, or 83.95 per cent.

You'll Want

Your Car in the best of condition when attending the Fall Fairs. Nothing is more annoying than to have your journey marred by motor trouble. Let us check it over now and give the needed adjustments to ensure perfect performance.

Or perhaps it would be a good time to have the comforts enjoyed in a new Ford V8. They back up any claim made for them.

NERVES!

The human telephone system covering all parts of the body.

Have you forgotten you have nerves in your feet? When arches "go down," nerves are cramped by the bones of the feet. Because of the structure of the nervous system you get reflex actions to distant parts of the body. That's why weak shins often cause trouble in legs, back, pelvis and other parts of the body.

Weak feet can be straightened up in HEALTH SPOT SHOES relieving aches and pains of long standing. Don't make your whole body suffer by neglecting your feet. Come in soon and try on a pair of the famous HEALTH SPOT SHOES. You'll know immediately they are different!

LOCALS

Acton Fair—in less than two weeks

The lawn mowers have had to come out of storage again.

Get ready now to attend Acton Fair on September 22nd and 23rd.

There was little confusion in reverting to Standard Time on Monday evening.

Acton Retail Merchants' Credit Association.

Get your entries ready for Acton Fair—a week from next Tuesday and Wednesday.

The foundations for Mr. J. B. Mackenzie's new house on Main Street are almost completed.

Several members of Acton L. O. L. attended the service of the Orange Lodge in Georgetown on Sunday evening.

Most of the centres, except Toronto, are now back on Standard Time again. Wonder the city couldn't give a little.

The flower bed at the Soldiers' Monument has been beautiful, this year with its steady bloom, and is yet very attractive.

The painting of the fair building at the Park is a big improvement. In its new coat of red paint it is more in keeping with other buildings there.

The jury at Rockwood on Thursday night recommended that white lines be placed on the pavement at the scene of the recent motor fatality. Workmen were putting the lines there on Thursday morning.

HALTON HOLSTEINS RANK HIGH AT C. N. E.

The Holstein show at this year's C. N. E. stands out as one of the strongest shows on record, with upwards of 400 head on exhibit. In this strong competition Halton breeders were well to the fore in the majority of the classes, winning slightly over \$550 in prize money. In the Inter-County competitions, Halton breeders, in competition with entries from Peel, Perth, Ontario, Oxford, Peterboro, Waterloo and York, placed second to the strong group from Oxford, the so-called Holland of America. This is an outstanding achievement for Halton Holstein breeders and represents by far the best showing they have ever made. Halton sent down 53 head in all, these being selected from the following herds: W. S. Dickenson, P. H. Graham, Herbert Ingelhart, Victor Lawrence, Percy Leslie, T. L. Leslie, Elton McLean, J. L. Neelands & Sons, John Pickett, Robinson Bros., A. Stark & Son, and A. E. Woodley & Son. The latter herd brought to their honor to the County by securing Reserve Junior Championship award on their herd sire.

DOING SOMETHING

There is nothing like the pride of doing something worth while to make us forget the limitations, is there? We can do anything we really want to if we stick at it long enough. No matter how handicapped we are, we can always do something if it is only a bright smile, or a kind word, or a helpful act. Many of us make the mistake of thinking that if we were as fortunate as our neighbors, we could live better, purer, and more useful lives. I have learned from experience that if we cannot succeed in our present position, we cannot in any other. If we cannot help the world where we are, we cannot help it anywhere else. It is not the kind of environment we have, but the kind of thought we think every day and the ideals we are following—in a word, the kind of men and women we are. We have already that within us which will respond to the right influence when that comes. Let us stand upright in our own feet and try to discover beauty, service and happiness in our own lives.—Helen Keller, L.L.D.
