CITY BREVITIES.

Miss E. L. Erskine has been on a
vacation this week at Waukegan.

F. V. Chamberlain and daughter
Grace and Mrs. B. Brewster are
spending the summer months at
Mr. George L. Sites' residence.

A crying need of this city are
some public fountains up here in
the business sections of the city,
where perspiring, heat oppressed
and tired horses can drink and if
dogs had a chance the danger from
rabies would be greatly reduced.

Can't our Street and Alley com-
mittee provide some means for scrap-
ing or otherwise cleaning off the mud
from Prospect avenue, especially in
the deep cut against Mr. Boulton
and the Doctor Babcock place?
Central avenue is now a perfect
street, let some attention be given
to the other paved streets.

Herman Mack, an experienced
baker and confectioner will open a
first class restaurant in the old Hein-
richs stand in the new Highland
Block tomorrow. Everything per-
taining to such an establishment will
be first class, bakery goods, ice
cream, sodas etc. Years of exper-
ience in all departments of the trade
fit him to do all he promises.

SPRINKLING.

To the residents of Central avenue
and north:—

On June 15th, William Tillman
and I appeared before the Fire and
Water committee of the city council
and it was there agreed and decided
that Central avenue was to be the
dividing line of the two districts,
Mr. Tillman having all south and I
having Central avenue and all north.
Therefore I am the proper street
sprinkler for Central avenue and
all north. Pay only the one who
gives the service.

Trusting you will give me your
patronage and support, I am,

Yours truly,
ALEXANDER FALK.

NOTICE.

avenue and Second street, which has

LIBRARY REPORT.

The number of books in the libra-
ry on May 31st, 1896, was 2219;
added by purchase, 86; added by
donation, 4; showing the present
number of books on our shelves for
circulation, 2309. No books have
been lost during the year. The few
volumes we have purchased have
been carefully selected, and the
board have the satisfaction of know-
ing that all the books in the library
are of the highest standard.

The circulation for the year past
has been 5120 volumes, divided in
the following ratio: 41 per cent.
were fiction; 42 per cent. juvenile;
9 per cent. history and travel, 8 per
cent science, poetry and miscella-
neous.

Leaving the above balance on hand
when the total tax levy for the past
year has been paid in.

The good that is wrought by our
library cannot be overestimated, and
each year is becoming more appre-
ciated by our citizens. Some plan
should be adopted by the council to
procure more suitable accommoda-
tions, that will give sufficient room
for our books and references.

The board were unable to pur-
chase many books during the past

year on account of the lack of funds,
and as for several years the council
have made very inadequate appro-
priations for library purposes. I
hoped that an amount of \$800 will
be granted for the coming year.

The attention of the council is
called to the act of the legislature,
passed this season, which provides
that a two mill tax can be assessed
for library purposes in addition to
the present limit under the statute
for such purposes.

W. O. HIPWELL,
Pres. Public Library.
