The Electric Light company is en-
larging its works, evidently expect-
ing an increase of business.
There were 82 marriage licenses
granted in Chicago yesterday; 71
boys and 78 girls born the same day.
There was quite a sharp frost
Monday night. At 6 o'clock Tues-
day morning it could be wiped off
upturned boards or plank walks.
The military academy cadets are
forming a strong football team and
will play their Fort Sheridan neigh-
bors Saturday on the academy
grounds.
George E. Bond, the summer oc-
cupant of the Aldridge, Glencoe vil-
la, has been invited to embark in the
Canadian & Pacific Mining and Mil-
ling Company, but George don't bite;
he don't even "nibble."

A Chicago man called at Hibbard's
real estate office yesterday, looking
for a choice residence in the aristo-
cratic portion of the city, but did not
want it to cost over \$4,000. He was
told to go toward the Des Plaines
river about three miles.

Just as we go to press we learn
that the Baptists will resume public
services one week from next Sunday,
October 3rd., and that the pulpit
will be filled by Dr. Galusha Ander-
son, of the University of Chicago
divinity school. As he filled the
pulpit so much between the pastor-
ates of Dr. Weddell and Mr. Gould,
the people know him. Probably no
man ever preached to that church
who gave more universal satisfaction
than he did.

We are glad to know that Har-
leigh Gillette will soon have his
electric clocks on the market. Think
of a clock you can set going New
Years day and not have to touch or
look at it till Fourth of July and one
that will keep perfect time all the
year.

We meant to have spoken of it
before, but we will now say that the
work of relaying the plank, fixing
the gutters and shaping of the ap-
proaches to the Laurel avenue via-
duct under the railroad tracks was
never better done than the last time
by Superintendent Nolan. The gut-
ters are specially well and thorough-
ly done.

The Highland Park club last night
inaugurated a movement which we
trust will be continued throughout
the winter—a lecture on a live topic
by a competent authority. Last
night's was by Prof. Graham Taylor
of Chicago, who discussed in a very
clear and able manner the question
of municipal reforms in New York
city. Everyone knows that our Amer-
ican cities are the worst governed on
the face of the globe, and that New
York and Chicago are the worst.
Whatever will save them will do it
for any other city on the continent.
We planned to attend, but was hin-
dered. These pestiferous litigants
make the righteous wicked sometimes.

A good local newspaper—one that
goes into the homes of the people
who buy at home—beats the world
as an advertising medium. A hand-
bill attracts attention by accident.
The newspaper carries your message
to a waiting audience. The rail
fence ad is a corps that can be looked
upon by a few neighbors who have
to go near it. The newspaper ad
goes into the home and takes a seat
at a family circle, and talks right
to the hearts of thousands of people
who pay their money for just that
kind of entertainment. They love
the family newspaper, and read
it with confidence. Nothing equals
a good, live local paper when it
comes to reaching the people.
