

HIGHWOOD HAPPENINGS.

Hal Lighthall is very sick.
Fred Sales is visiting his uncle, W. C. Barrett.

Mrs. Van Loan is visiting her sister, in Chicago.

Mrs. C. D. Gail returned last Thursday, from her visit to Lincoln, Ill.

The Rebeccas held an anniversary party at Hogan's hall last Monday evening.

Miss Grace E. Smythe, of Hitt, Ill., is spending the week with Mrs. F. E. Woodruff.

E. L. Harvey and wife, of Evanston, spent the week with his brother, H. L. Harvey.

Miss Nina Bell intends to spend Sunday with Miss Florence Skidmore, at Ravenswood.

A. J. McKenzie, of Anderson, Ind., visited the local lodge I. O. G. T. last Monday evening.

Mr. and Mrs. E. W. Westlake are staying over Sunday with Nelson Mowers and family.

Charles E. Dingle had an auction of his household goods last Monday. He left for Canada Tuesday.

Dr. George W. Turner and wife will start next week for Canada, to visit his relatives and friends.

Louis Schetzley, owing to the remarkable increase of his appetite, has built a new kitchen on the rear of his house.

W. C. Blick, not appreciating the free ride in the Bohl house while it was being moved, packed up his furniture and moved to Goldberg's opera block, Highland Park.

Harry Brownley, having bought a lot from J. S. Prall, opposite C. E. Dingles, is moving his house from its old location on Waukegan avenue, to its new site on Highwood avenue.

At the regular board meeting last Tuesday evening, after the approval of the minutes, and payment of bills and salaries, including H. G. Grudevant's bill for \$100 for architectural services on the city hall, the clerk was instructed to prolong the time for receiving bids on the old Washington avenue sidewalk for two weeks longer.

HIGH SCHOOL NOTES.

There is a possibility that a class in Greek will be started.

There are 33 girls and 32 boys in school, which is a departure from the usual rule of three girls to one boy in a high school.

Our rooms have been freshly calcimined and tinted and otherwise improved, so that we have more pleasant school rooms than ever before.

It is not probable that a foot-ball team will be organized this season.

Miss Ethel Aldridge, who was absent for a few days on account of a sprained back, has returned.

The new seats ordered, have been received and placed in as good position as the limited space would allow.

Our high school opens with an attendance of 65, the largest in its history, being an increase over the last term of 15.

RAVINIA ITEMS.

Misses Covey and Edith Ordway, of Waukegan, visited friends here last Saturday and Sunday.

Mr. Milton Hardacre and a friend from Englewood made a brief visit at Judge Comstock's this week.

Mr. Inman has moved back to Chicago, having rented his house to Mr. Gross, the new school teacher.

J. C. Coe has returned from a long trip and has started off again, this time it is to the State Fair at Springfield.

Mr. Kline and family have moved back to the city. It is with regret that we see such good neighbors move away.

The Epworth League held its annual meeting Thursday evening, at the home of Mrs. W. P. Lucas. The sociable was the main feature of the evening.

Some one has forseen trouble for the village and been thoughtful enough to replace a number of decayed planks in the footbridge on Railroad avenue.

It is regretted that the burnt walk has not yet been renewed. The fire was started by sparks from a locomotive, and it is expected that the Railroad Company should renew all property so damaged.

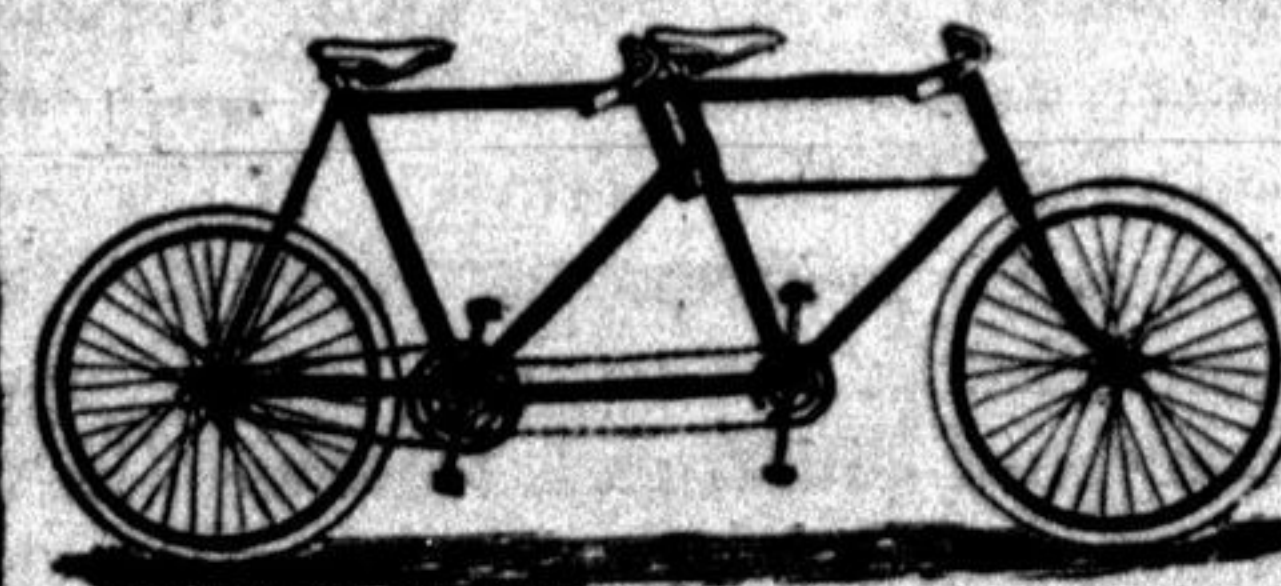

Messrs Grant and McKenzie have about completed their job of boring a well on the school lot. The well is now 196 feet and 10 inches in depth, and we are assured that the well will yield 100 barrels a day. Through an error in the items of three weeks ago the impression was given that the work on the well had come to a standstill. It should have been that work was delayed as part of the apparatus became lodged in the hole. The men in charge have since renewed their efforts and the result is that the district has a first class well.

Arthur E. Meaker, Jr. and his choir boys are in Chicago today seeing sights. Among other things they will see how newspapers are made in the Record and News plants.
