## TRIALS OF SALESWOMEN.

Mrs. Pinkham Says Standing Still is One of Woman's Most Trying Tasks.

Have you ever thought why it is that so many women or girls rather walk for an hour than stand still for ten minutes?

It is because most women suffer from some derangement of their delicate organism, the discomfort from which is less trying when they are in motion than when standing.

So serious are these troubles and so dangerous to health that the laws in some states compel employers to provide resting places for their female employees.

But no amount of law can regulate the hard tasks of these women. Customers are exacting, and expect the saleslady to be always cheerful and pleasant. How can a girl be cheerful when her back is ached by lassitude and bearing how sweet tempered she is way under the pain after a while.

Important capital, and no one can be without delay to Mrs. Pinkham, at Lynn, Mass., and tell her all about yourself. Your story will not be new to her; she has heard it many thousand times and will know just what you need. Without doubt, Lydia E. Pinkham's Vegetable Compound will help you. It has done such wonderful things for suffering women. Do not hesitate to write her all the little things that make you feel miserable. Your letter will not be seen by any man, and Mrs. Pinkham's advice will cost you nothing.

"DEAR MRS. PINKHAM:—For years I had suffered with painful menstruation every month. At the beginning of menstruation it was impossible for me to stand up for more than five minutes, I felt so miserable. One day a little book of Mrs. Pinkham's was thrown into my house, and I sat right down and read it. I then got some of Lydia E. Pinkham's Vegetable Compound and Liver Pills.

"I can heartily say that to-day I feel like a new woman; my monthly suffering is a thing of the past. I shall always praise the Vegetable Compound for what it has done for me."

I am now taking the last one, and I have not felt as well and strong for years." H. P. JONES, 223 E. Mulberry St., Kokomo, Indiana. Remember

A well-known public lecturer is fond of telling how he was once introduced to an audience by a man manifestly unaccustomed to performing duties of that sort. Stepping to the front of the platform before the large audience, he said: "Ladies and gentlemen, we have with us this evening Prof. Blank, who I understand has a finer flow of language than I have, and will ask the professor to come forward and consume the time."
