NEWSLETS.
 Buttericks patterns for sale at Miss
 Erskine's.
 A new flag has been raised over
 Mrs. Bock's store.
 Mr. and Mrs. Earl Alden of Chi-
 cago, spent Monday with City Clerk
 Finney and family.

A German class has been started
 by Rev. Haefele in the First United
 Evangelical Church.
 Fresh Pat cheese and buttermilk
 can always be had at Allen's dairy
 farm, one mile south of station.

Arthur Purdy and several other
 young men working down at the
 Gray Electric, left Sunday night for
 St. Louis to set up and install that new
 and immense switch board the Kel-
 logg folks have just built.

The finest Elgin creamery butter,
 packed in jars of any size, at 18c. per
 lb. If you are not already using
 this butter, don't fail to use it. It is
 delicious. Allen is the only man
 handling this butter on the North
 Shore. P. O. box 40.

Tuesday First Lieutenant T. W.
 Winston 1 st, artillery, stationed at
 the Northwestern Military Academy,
 was ordered to go to Indianapolis,
 Ind., where he will act as assistant-
 quartermaster in purchasing horses
 for light batteries of volunteers to
 Indianapolis.

Mr. and Mrs. C. J. Winchester and
 Mr. and Mrs. John A. Putnam will
 hold a reception on Wednesday next
 June 8 th, from 4 until 6, and from
 8 until 10 o'clock p. m., at their home
 on the Sheridan Road north. This
 will be Mr. and Mrs. Putnam's first
 post-nuptial reception.

By the way we have been told Mr.
 Kellogg of the Switch board folks in
 the Gray Electric, paid the largest
 fees to the patent office ever paid by
 any single individual. That is to say
 legitimate, legal fees: if there are
 any of an illegitimate kind—well Mr.
 Kellogg is not in that sort of business.

The Chicago Telephone Company
 have out a list of new subscribers, of
 whom there are several in this town.
 Better have one in your home if you
 propose to be in the swim in this year
 of grace and military glory, when the
 American flag floats on every sea and
 her eagle screams victoriously the
 wide world around.

The public schools observed Mem-
 orial day Friday afternoon in the
 Assembly hall, most of the grades
 participating, aided by the drum
 corps. Most of the school board
 were present with citizens and pupils
 filling the room. One of the pupils
 told us there "were no speeches" to
 their evident relief. Let the day be
 always observed.

How is this for successful garden-
 ing: potatoes planted just sprouting
 April 11 th, now six to ten inches
 high after second hoeing, and another
 patch set out, sprouts six inches long,
 May 6 th, nearly as far advanced as
 the first lot. Some people have told
 us repeatedly that sprouted potatoes
 no matter how carefully set out would
 not grow. Ours do, and are as far
 ahead as those planted in the ordi-
 nary way nearly a month earlier.

Rev. Mr. Dodds, a returned mis-
 sionary from Mexico, gave a lecture
 on his work in that country and the
 prospects in Cuba, in the chapel of
 the Presbyterian Church, Wednesday
 evening. Mrs. Dodds addressed the
 Ladies' Missionary Union, the same
 afternoon. They had an adopted
 daughter, a bright little Mexican
 girl with them who sang, "When he
 Cometh," in Spanish. They are
 planning for work early in Cuba.
 The "Nickel Plate," that finely
 built, equipped and admirably man-
 aged railway line between Chicago,
 New York, Boston and the east gener-
 ally, have just issued a very hand-
 some and artistically gotten up little
 booklet entitled, "Summer Outings,"
 giving lists of tours, places of special

interest on or near their line, which
 takes in the old original Chautauqua,
 Niagara Falls and scores of other
 places of interest, and what is quite
 a novelty a list of summer hotels,
 country homes with post-office ad-
 dress of proprietors, rates of board,
 how to get there etc. Low excursion
 rates to all these places are made for
 the summer travel. If you want a
 copy drop a postal to the Passenger
 Department of the Nickel Plate, 111
 Adams street, Chicago.

THE FACTORY
 As everybody in the Park knows,
 the Kellogg Switch Board Co. of
 Chicago, rents two floors and the
 foundry of the Gray Electric plant
 down at Idlewild, but very few per-
 sons have any idea of what a perfect
 hive of industry the place is. We
 spent an hour down there one day
 last week, and got our eyes open to
 the fact that it is an important fac-
 tor in the life of this town. At the
 time of our visit over 125 persons
 were daily employed, which means
 earning their own living and help-
 ing support their families, in many
 cases, and all that makes a vast dif-
 ference to the Park. Turn these 125
 persons out idle three to six months
 and who will furnish food and cloth-
 ing and fuel for all the families re-
 presented? Ask Supervisor Fletcher
 what it means to him as almoner of
 the county's help to the needy. The
 pay roll of this company must come
 up to between \$5,000 and \$6,000, a
 month, most of which finds its way
 into our stores, groceries, meat mar-
 kets etc. Five-thousand a month
 means not a little to the business
 prosperity of a three thousand popu-
 lation town.

What they are doing down there
 we don't know, only we saw them
 molding and casting brass fixings,
 drills, lathes etc, by the score all run
 by steam, and these six score persons
 all working on the various parts of
 switchboards and phones. One man
 sat all day at a machine turning out
 little brass screws so small that we
 wanted on two pairs of "specs" to
 see them. Another was "tuning up"
 the phones, talking in with his own
 lips and hearing with his own ears,
 and at times he seemed wonderfully
 interested in his own conversation.

They are building a lot of big
 switch-boards for St. Louis, each
 about 5x6 feet in size with scores if
 not hundreds of plugs in each one.
 When we got through the whole
 shop, under the personal escort of our
 old friend and neighbor, W. M.
 Goodridge, the general local manag-
 er of the concern, it was all as "clear
 as mud" to our comprehensive mind,
 just as was a woman's explanation of
 how the Wheeler & Wilson Lobbin
 made the stitch: "You see that little
 round wheel in there don't you," she
 said, "Yes we see it," was our lan-
 guid reply. "Well, that goes round
 and round and that makes the stitch,
 now you see don't you?"

Yes we saw her and the machine,
 and the bobbin. So we saw neigh-
 bor Goodridge, the factory, those
 countless milling and other machines
 and the men—and you guess how
 much more.
