THE CROPS.

S. Department of Agriculture Cro Bulietin of Weather Bureau for Week Ending July 12.

Chicago, July 20 .- The reports as to the condition of the crops throughout the country, and the general effects of pepsia and constipation. the weather on the growth, cultivation and harvest of the same, were Tuesday made by the directors of the several climate and crop sections. The reports received at Chicago were as follows:

Obto-All crops damaged by drought, but conditions somewhat relieved by copious showers in latter portion, especially benefiting corn, grass and gardens. Haymaking and wheat threshing continue. Many complaints of shriveled grain. Some oats cut, heads light and straw short. Corn tasseling and silking. Cool nights in early portion injured corn in northwest counties. Light frost in Fulton county on the 11th. Tebacco fair growth.

Michigan - Frost did much damage to corn, potatoes, buckwheat, beans and garden truck in northern half of lower peninsula. Wheat being finely secured and threshing has begun. Oats ripening and cutting will be general next week. Rain is much needed, especially for corn which is rolling and for beans, potatoes and gar- is not the cause; the pollen is not the cause; den truck.

Indiana-Dry warm weather injured growing crops, but good rains Friday and system; and it is the constitutional pre-dis-Sunday did much good in localities: Rye position that gives power to the dust or poland wheat threshing continued. Yields the disease and make one man suffer while very good. Large crops of hay secured in best condition. Good crops of oats are being cut. Corn tasseling. Need rain in lo-

liknois-Favorable week to finish having and harvesting; winter and spring wheat, rye, barley and oats mostly in shock or stack; threshing fine, hay well saved; corn doing well, but with late potatoes, late gardens, broomcorn, pastures and fruits, is needing rain; early fields tasseling and ears

lowa-Full week of ideal harvest weather well improved. Winter grain all secured and threshing begun. Barley in shock Oats harvest about completed in southern section and well advanced in northern Spring wheat harvest begun. Ripening of oats and wheat hastened and yield lightened by rust on blades. Corn doing well and uninjured by drought.

Wisconsin-High temperature and no rain very favorable for having and grain harvest. Hay crop heavy and large proportion now secured in excellent condition Winter rye and barley nearly all cut. Corn improving and oats and spring wheat

ripening. Tobacco doing well. Minnesota-Warm and generally very dry. Spring wheat turning color in southern half. Not thought that hot weather has caused injury by premature ripening, but that filling is satisfactory. Spring wheat harvest will begin from 20th to 25th. Winter wheat and rye cut. Barley being cut. Large hay crop being secured in excellent

North Dakota-Extremely hot dry weather with scattered showers was very favorable for grain which continues in fine condition except in southern portion where previously damaged. Wheat heads large and filling well. Corn improving, flax in bloom

and haying progressing. South Dakota-Warm with light scattered showers. Spring wheat and oats steadily filling, but in many fields where before damaged by hot winds heads partly lighted; elsewhere heads long with plom; berry, especially in wheat. Rye and barley harvest continues. Corn and potatoes

progress rapidly. Missouri-An excellent week for haying, and heavy crop of timothy being secured in good condition: Corn suffering seriously from drought in some southern counties; elsewhere generally doing well, though needing rain over entire state. Chinch bugs doing much damage in localities. Cotton and tobacco continue promising; apple and

peach crop very light. STATE FAIRS, ETC.

A Dilemma and the Way Out. There are thousands of Hay-Fever and Asthma sufferers who cannot resort to change of climate during their annual attacks, either because of the expense or because duties at home will not permit their

absence. They have to stay and suffer. There are many, also, who are year by year finding that places heretofore exempt are beon to find new locations where they can escape the Hay-Fever field.

Now this is all wrong. When doctors tell you that Hay-Fever-cannot be cured, they simply mean that they cannot cure you. What is it that makes one man have Hay-Fever or Asthma and another escape entire-

another goes free. Our constitutional treatment for Asthma and Hay-Fever is addressed to this pre-disposition, and by changing the constitution it eradicates the cause and cures to stay cured, taking out of a man that which makes him different from the man who has no disease and giving a robust body strong and health-That these statements are correct, and that our treatment does just what we say is testified to by thousands who have tried it and know whereof they speak.
