### WILL SEE FOR HIMSELF.

President McKinley, to Personally Investigate Conditions at Camp Wikoff.

Cleveland, O., Aug. 31.—While President McKinley very much desires to pay more than a brief visit to his old home in Canton, he finds that the duties of his office are such that he will be obliged to cut his visit there to a mere call.

The president will spend a couple of days in camp at Montauk Point and Camp Wikoff, so as to correctly inform himself as to the condition of affairs and the truth of the reports that have been circulated, from personal observation and contact with the men. The presidential party will be at Col. Myron T. Herrick's residence, in this city, until Thursday morning, when they will leave for Canton.

Big preparations have been made to receive President and Mrs. McKinley there by their old friends and neighbors and the people of Canton in general. It was the intention to make the occasion a civic jubilee. All this, however, will now be reduced in a measure from the fact that President McKinley and party will only be in Canton for two or three hours, and will then take a train for New York. Undoubtedly the president will be given a royal welcome during his short stop-over in Canton.

On the eastern trip, which is part of the programme outlined, the presidential party will hardly stop longer at New York than will be necessary to catch a train for Camp Wikoff and Montauk Point.

The president will probably be in camp at the two places mentioned on Friday and Saturday, leaving Mrs. McKinley in New York city, whither he will return to spend Sunday, and then go back to Washington. The trip from Canton to New York will be made over the Pennsylvania road, departing from Canton during the afternoon of Thursday. President and Mrs. McKinley, the latter's maid and Mr. George E. Cortelyou, assistant secretary to the president, will accompany the chief executive to New York.

"The president really had no very definite plans for spending his time on this trip when he started out," said his secretary. "He made the plans along the way, and has been constantly receiving telegrams and other matters in connection with the war that needed his attention. President McKinley and party had intended spending two or three days with Abner McKinley, the president's brother, at Somerset, but the plans were changed. It is the intention of the president to get as much rest as possible while here. He will probably return to Washington for a short time after this trip, and intends taking a longer vacation a little later this fall."

### ANOTHER CRUISER.

Fine Ship Albany Is Soon to Be Added to the United States Navy.

Washington, Aug. 31.—Now that hostilities are over the United States is at liberty to receive from the British builders the fine cruiser, Albany, sister ship to the two acquired from Brazil just prior to the outbreak of the war.

Acting Secretary Allen has ordered Passed Assistant Engineer Norton, who has been of the greatest service in the engineering bureau during the war and for many months preceding when war preparations were making, to proceed at once to Newcastle-on-Tyne, England, to supervise and inspect the completion of the machinery of the Albany. It is expected that the ship can be completed in about four months, when she will be brought across the Atlantic by an American crew.

### AWFUL REVENGE.

Terrible Death of a Quartermaster at the Hands of Angry Negroes.

Altoona, Pa., Aug. 31.—Soldiers passing through Altoona tell a strange story regarding the death of Quartermaster George J. Franks of company G, Twelfth New York regiment. The regiment is encamped at Chattanooga. Because of the death of three hospital patients after drinking milk sold by negroes living in the neighborhood the quartermaster of company G would not allow the negroes to sell anything to his company. Friday night a gang of negroes caught Franks outside of the camp grounds, and after beating him nearly to death threw him under a passing railroad train. Since then the guards have been ordered to shoot any negro who attempts to pass the camp lines.

### FIRST ILLINOIS BACK.

### WELL-NIGH BRUTAL.

But the Stern Parent Was Not Wholly Without Cause for His Unkindness.

He was a well-meaning young man. He had a way, however, of standing by the side of a piano and rolling his eyes at the chandelier while sweetest music gurgled from his throat. Friends were fond of to suggest to him that his efforts were other than melodious. Such is the patient charity of this much-maligned world.

The man with iron gray side whiskers and an eagle eye showed signs of overtaxed endurance. It was his daughter who was playing the accompaniment, and it was his play they were burning.

"Did I understand you were going to sing 'On the Banks of the Wabash, Far Away?'" "Yes."

"When?" "Why, right away."

The questioner took out his watch and said: "Well, I'm afraid you haven't much time to spare. The next train for the west goes in less than three-quarters of an hour, and you'll have to start for the Wabash far away, right away, if you're going to sing there before the week is out. Good-by. I hate to have you cut your vacation short, but I wouldn't have those folks on the Wabash, far away, disappointed for anything."—Washington Star.

The Biggest Bicycle in the World. A German has just completed a bicycle that has one wheel nine feet in diameter. Two people ride it—one on each side of the monster wheel. It runs as easily as a smaller bicycle because of its scientific construction. The scientific formula of Hostetter's Stomach Bitters is the reason of its great virtues in making the weak strong, and in curing most of the ertury ailments of men and women. ## NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss Gertrude Sikes, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhoea. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sanative Wash has cured me of leucorrhoea. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.
