

LEARNED ITS VALUE.

The serious mishap which befell the Lake Forest students last Sunday demonstrated, as never before, the supreme advantage of the long distance telephone system of the Chicago Telephone Company. As soon as the central operator at Lake Forest learned of the accident he placed the facilities of the system at the command of those who were endeavoring to rescue the parties adrift on the ice. All of Sunday afternoon and night the wires were busy with calls from Highland Park, Evanston, Lake Forest, Waukegan and Rogers Park. Early Monday morning the district manager, Mr. Whitehead, relieved the Lake Forest operator who had remained on duty all night and personally busied himself, to the exclusion of all other matters, in assisting the various rescue movements. Practically all the information, orders and directions passed over the long distance lines of the telephone company, and the generous, intelligent and effective manner in which the search was conducted reflects very creditably upon the telephone management.

NEW CENTRAL HOTEL.

Mayor Evans is making extensive improvements on the Central Hotel property recently acquired by him. A two-story brick addition will replace the present rear portion of the house. The dining room ceiling will be raised, modern plumbing, steam heat and bath rooms will be added. The entire house will be completely renovated and put in first-class order for a new tenant May first. When completed the Central will contain sixteen guest chambers in addition to the parlors, dining room and office. The improvements being made will make of the Central a thoroughly modern hotel. The structure itself is a landmark in Highland Park.
