

WINNETKA COUNCIL.

A regular meeting of the village council was held Feb. 28, with the following members present: President R. B. McConnell, Trus-

Dingwell and Osgood. Minutes of the previous meeting were read and approved with the following change; that Trustee Prouty's motion in regard to Mead & Coe's letter was to await the presence of the chairman of committee on drainage instead of authorizing them to make cess pools as requested. Letter of F. J. Fischer asking for rebate and reductions in special 86 was read and referred to the committee on finance.

Trustee Thorne reported on the request of Mrs. Smith for rebate on special 64 and recommended that as there was no money on hand in that special, action be deferred until collections had been made.

Trustee Dingwell reported on the request of Mead & Coe and the following resolution was passed: **RESOLVED**, That Messers Mead & Coe be permitted to connect cess pools in premises at Lakeside as requested by them in their communication to this council, providing they take precaution to so construct and maintain such cess pools so that they do not become objectionable to people in the vicinity nor to the village generally.

Trustee Dingwell reported a leaking hydrant in front of Mrs. Hawkes' lot and moved that the water works engineer be instructed to repair it. Passed.

Trustee Herdman reported that a water main in Ash street had burst and that 43 service pipes, all in macadamized streets, had been frozen; also that the Glencoe meters are not working satisfactorily and that by test there was loss of from 25 to 40 per cent and on his motion the clerk was directed to notify the Glencoe council of the loss and ask for a committee to meet the committee on water and see the test of the meters and arrange for prorating the loss.

The attorney reported that it was not necessary to pass an ordinance directing the collector to turn in a delinquent list, as the statutes required it.

The Y. P. S. C. E. tomorrow night holds Consecration meeting. Subject, "The gates of Zion."

Mrs. Capron has been confined to the house for two or three

The recent cold weather has formed temporary miniature skating rinks within convenient reach of all the school children who may be seen deriving an immense amount of comfort at present in sliding.
