The approach of the city elec-

tion has brought out many candidates for office. The most important question for the people of Lake Forest is, who are they going to support for mayor. Edward F. Gorton is the choice of the people if he is willing to accept the office. He has served the city for the last four years and the city never has been as well governed. The improvements that have been made during his administration has doubled the value of our property. More money has been expended in private residences and grounds during this time than has ever been spent here before. Our city is known far and wide for its beautiful lawns and well paved streets. The credit for this is due to a great extent to our progressive mayor. Perhaps he may be induced to continue the good work. provided the invitation is unanimous. A petition should be circulated at once which will show Mr. Gorton that the citizens of Lake Forest appreciaté his services and desire him to accept the office again this year.

Miss Mary McLaughlin still continues to handle our mail and to greet the patrons of the office with a pleasant smile and a cheerful look in spite of the fact that, a hard fight has been made to get the office away from her. Congressman Foss is waiting for everyone that wants the office to file their petition. If the petition the patrons is to have weight Miss McLaughlin will be reappointed, as a majority of the citizens of Lake Forest signed for her.

Miss Jeanette Simontons' new house is under way. It will be the first strictly up-to-date residence built in the south Highland addition, having all modern conveniences. The style is colonial, on stone foundation. The location is on Dean ave, near the Sheridan road. It is about time that the old bridge on Dean ave is rebuilt, giving a direct outlet from the Sheridan road to the Ravinia depot and opening up a beautiful but almost unknown country between.

than usual in the evening and a good
attendance is especially desired.
