Dr. F. M. Ingalls has leased the Rectenwald farm on the south border of the Exmoor Club golf grounds. This latest move is prompted by the doctor's desire to serve his guests at his two hotels with nothing but fresh vegetables, fruits, poultry and eggs. He has placed a competent superintendent in charge and can guarantee his guests all the products of this splendid farm. Having all the eatables fresh from the farm insures the hotel's setting a fine table.

#### THE OSSOLI.

The 12th regular meeting of the Ossoli Club was held on Thursday, April 6th, in the rooms of the Highland Park Club, at half after three.

Owing to the illness of the secretary, the minutes of the previous meeting were omitted. Mrs. Vail was appointed secretary pro tem.

The president announced the subject of the next meeting to be Kipling and essayist Mrs. Henry Street, the music by Colonel Wainwright.

She also requested that all suggestions for next year's work be handed in before the annual meeting, as no consideration could be given them after that time. The action on vacation schools was postponed until a later meeting.

By the kindness of Mrs. George Cole, the club had the great pleasure of listening to Mrs. Balfour, and the thought of the Easter season, so beautifully shown by the lillies in the ladies' parlor, was carried out in the first song, which was "Hosanna," by Grenier. The club then had the pleasure of listening to a paper on Zola—the essayist Mrs. Laura Dayton Fessenden. Mrs. Balfour then rendered most delightfully, "Denza's May Morning" and Burn's "Red, Red Rose."

The discussion that followed was most animated and participated in by a large number of the members. The club adjourned and tea was most beautifully served by Mrs. Stedman and Hipwell.

#### N. M. A. NOTES.

Rev. Pfanstiehl delivered one of his usual good talks to the cadet Y. M. C. A. last Sunday evening, taking for his text a part of the 32nd chapter of Isaiah.

Through premature exposure of of plans, the Chicago papers of last Saturday and Sunday continued, the story of the auto-mobile battery experiment which the corps will attempt to make. As usual part of the story was true and part was not, but this much is true, that we will make the attempt. Of course, in experiments of this kind we will get no help from the government or from the state, but will do as we did with the cycle experiment and go it alone. Under these circumstances no one must blame us if we keep part of our plans and experiments to ourselves until such a time as we think best to make them public.
