ADMINISTRATION BALL.

A brilliant ball, accompanied by great merriment and jollification, was held last Monday evening in the pavilion at Fort Sheridan Park, Highwood. The occasion was the celebration of the sweeping victory over their opponents of the Citizen's ticket. It was a "Grand complimentary administration ball, given by the officers-elect of the village of Fort Sheridan to the friends and supporters of the People's party," and judging from the large attendance, the administration has many supporters and friends, for a larger assemblage never before gathered beneath the roof of the pavilion.

A fine orchestra from Chicago furnished the music and the principal feature of the evening was dancing. In the grand march over one hundred and twenty couples participated.

For the hungry a booth had been erected in a corner of the hall, where refreshments were furnished; while a stand outside furnished light refreshments, such as pop, etc., to the thirsty.

Among those present were many from Lake Forest, Highland Park, Glencoe, Winnetka, Libertyville, Deerfield and Waukegan and a very large percentage of the population of Highwood and Fort Sheridan. It was a very large crowd, and all went merry as a marriage bell.

Dancing lasted until midnight, when the crowd dispersed, complimenting very highly the officers-elect for the royal entertainment furnished them.

The hosts of the evening were: William F. Hogan, president of the village board; Charles H. Cary, clerk; and Trustees Swanson, Benson, Savage, Brady and Roberg.

Miss Marie Hoey and Miss Brehan of Evanston were guests of Mrs. Quirk this week.

Miss Amy Holabird, who has been ill for some time with malaria, is out again.

MAKE POULTRY PAY.

In order to succeed in the poultry business as well as in anything else, it is necessary to start right. The first essential is poultry (chicks) itself. Unless there is successful incubation and successful brooding there can be no poultry. Chicks that die as soon as they kick out of the shell, or at the end of the second day, do so because they were not properly hatched. They were robbed of their vitality and their ability to live by incorrect methods in incubation. The
