The Northwestern people have got in all the "false work" required to support their tracks when the earth is removed. Dr. Nutt has renewed the fortification on his western front. The clerk of the weather has been kicking up the dust; and all in all, the work goes bravely on.

MEN'S CLUB.

The Men's Club continues to make the Sunday evening services at the Congregational church attractive and helpful. Dr. Loba's address last Sunday evening was not only timely and practical for daily life, but his application to our Christian lives of the thought that each one's supreme duty is to do thoroughly that which is at hand, and that part of that duty is to fill the church pews and cheerfully pay ones full proportion of the church expenses.

For next Sunday evening, the Men's Club has secured a new attraction. Dr. Joseph E. Ray will deliver a stereopticon lecture on "Our new possessions and our new responsibilities." This will include war scenes on both hemispheres, and views showing the customs of the peoples, etc.
