

GOLF NOTES.

Golfing will come to the fore on the Exmoor links again next week at the woman's handicap tournament to be played Monday, the 17th, for that beautiful prize cup presented for the occasion by Mrs. William H. Moore. It will elicit a great deal of interest and be a game well worth seeing, and undoubtedly will attract a large number of golfing ladies from all the neighboring clubs. The best eight scorers will have the match play Tuesday, Wednesday and Thursday following. Nine holes will be played each forenoon and afternoon of the several days. The Brambles will not be played over, and the balls will be teed in from the same. Rules will be strictly observed.

Among those who will be here next week for the woman's tournament will be Mr. and Mrs. Chatfield Taylor, who will drive down from her Lake Forest home and go on the links. They are members of our Exmoor as well as their own On-wentsia. She is ex-Senator Charles B. Farwell's daughter.

There are no vacancies at Exmoor. There are several eligible and very desirable candidates who wish to join, but "there is no vacancy," as the club is limited to 150 members, and so the would-be members have to wait. That indicates pretty well the standing of the club.

The NEWS-LETTER is reliably informed that the Exmoor's cash receipts for June, 1899, were nearly \$3,000. That don't look much like going into bankruptcy. We therefore wish to congratulate Chairman Scott and his associates of the sports and pastimes committee on the tact, skill and success with which they manage their part.

Miss Scott, who with her sister, Miss Evelyn, are passing the summer with their brother, E. Norman Scott, at Judge Hibbard's, spent the most of this week in Chicago as the guest of Mrs. Harold McCormick. Mrs. McCormick, as our readers may know, is the daughter of John D. Rockefeller, the founder of the University of Chicago and the Standard Oil Company.

Special dining rooms provided for parties in club house on the grounds.

MAKE POULTRY PAY.

In order to succeed in the poultry business as well as in anything else, it is necessary to start right. The first essential is poultry (chicks) itself. Unless there is successful incubation and successful brooding there can be no poultry. Chicks that die as soon as they kick out of the shell, or at the end of the second day, do so because they were not properly hatched. They were robbed of their vitality and their ability to live by incorrect methods in incubation. The

"OLD RELIABLE" INCUBATORS make no such mistakes. They are so constructed that a new beginner is bound to succeed—just fill and light the lamp; the machine does the rest. Controls heat, moisture and ventilation perfectly.

Our Reliable Patent Copper Log Bands are the best, easiest applied and most durable bands made. Reduced to 12 for 20c. 50 for 50c, 100 for 80c, 500 for \$3.50, 1,000 for \$6.50, post or express free to any address. We make a specialty of fine

Reliable Exhibition Coops, lightest, neatest, easiest kept clean. Our 228-page Catalogue and poultry book tells all about it and our brooders, poultry-house plans, pure-bred poultry, poultry supplies, etc. Sent to any address on receipt of 10c in stamps or silver.
