

the morning round ended with Mrs Alexander four up

Mrs. Alexander continued to increase her lead in the afternoon, play beginning at 3:30 o'clock. The first was halved in 6, as against 8 in the morning, and the second was won by Mrs. Alexander in 5-6. She also took the third and thus was dormy six. Mrs. Cutter took the next 9-10, but the next hole ended the contest, the hole going to Mrs. Alexander 6-9. The cards:

Mrs. W. A. Alexander, out, 8 5 5 8 8 6 6 6 7-59
 Mrs. J. M. Cutter, out, 8 6 7 8 7 10 7 8 7-68
 Mrs. Alexander, in, 6 5 6 10 6
 Mrs. Cutter, in, 6 6 7 9 9

This gave Mrs. Alexander the cup by a score of 6 up and 4 to play. Mrs. Cutter seemed to be exhausted or overcome with the heat during the afternoon. Altogether it was a splendid game from first to last and elicited great interest and crowds of women were on the grounds as the game progressed. Mrs. Alexander accepted her success with her accustomed self poise and consideration for her competitors. It leaves no heartburns or other unpleasant feeling as is sometimes the case. It will long stand as a unique and thoroughly successful and satisfactory contest, a bright page in Exmoor's fair history.

MAKE POULTRY PAY.

In order to succeed in the poultry business as well as in anything else, it is necessary to start right. The first essential is poultry (chicks) itself. Unless there is successful incubation and successful brooding there can be no poultry. Chicks that die as soon as they kick out of the shell, or at the end of the second day, do so because they were not properly hatched. They were robbed of their vitality and their ability to live by incorrect methods in incubation. The

"OLD RELIABLE" INCUBATORS make no such mistakes. They are so constructed that a new beginner is bound to succeed—just fill and light the lamp; the machine does the rest. Controls heat, moisture and ventilation perfectly.
