

Good Work of our Citizens.

During the past few days a number of bicycles have disappeared very mysteriously. Thursday afternoon Mr. A. E. Wickham's wheel was taken from the rear of one of the stores. Thursday evening Ald. Van Riper discovered that he was minus his iron steed which he had left outside of Raffin & Baker's office up in the lumber yard district.

He in company with Mr. Arthur Basye had gone in the office for a few minutes and when they returned were very much surprised to find the wheel gone. They were informed by Mr. A. G. McPherson that he had seen a rather suspicious looking character trying to ride a bicycle north near Mr. Schwarz's residence and that it might possibly be Mr. Van Riper's wheel. Mr. Basye rushed over to the Northwestern railroad saying he would try and head him off. He mounted a hand car which had been used during the day by some section men and started north toward Highwood and as it is down grade most of the way he made very good time. Arriving in Highwood he side-tracked the car and started for the main road, where he lay in ambush for the coming thief, who soon made his appearance. Mr. Basye jumped out on him very unexpectedly and dealt him several blows which knocked him off the bicycle. He then informed his victim that it might be well for him to take a few lessons before attempting to make away with another wheel. Mr. Basye brought the wheel down to the Park and gave it to Mr. Van Riper, who it is needless to say, was very much pleased to get it back.

People have been too careless with their bicycles; almost every night one can see them standing around on porches and under trees. It is a wonder that there are not more stolen.
