

**The New Telephone Directory.**

SHERIDAN ROAD NEWS-LETTER—

Gentlemen: I have pleasure in handing you herewith a copy of our telephone directory, in which we are trying a new plan of publishing in the general list the names and telephone numbers of subscribers in Highland Park and the other 130 cities and towns around Chicago which are now reached by our lines. A business man or resident in Highland Park is given the same publicity in regard to telephone service as one in Chicago and your city becomes more than ever a part of the general telephone community included in this group of towns. From any one of our exchanges any subscriber in the list may be called for by giving the name of his exchange and the number. If reached by a toll line the amount of toll to or from Chicago is published opposite the name.

The local directory of Highland Park subscribers exclusively will be published in the usual manner and delivered from time to time. We hope however, that the general directory in the new form will be found of advantage to the service of our patrons.

Yours truly,

A. S. HIBBARD, Gen. Mgr.

There are about 12,000 agricultural laborers in Rhode Island. They go over into Massachusetts and Connecticut to sleep, as the state won't hold them.

The man who is hauling off the old shingles etc, from the Presbyterian church should be made to pick up those that fall off his load into the street, which in some places is about as thoroughly covered with them as was the building itself.

Clinton Spencer is entitled to the thanks of the public. He found the ravine cats were killing the birds about their home, as they are everywhere on the east side, and so being a crack shot, he has lain under the bushes and shot the pests, till a score of them have gone to the "cat" aclassom. It is hoped he will keep at it all summer.
