LAKE AND LAUREL AVENUES,

THREE BLOCKS EAST OF DEPOT.

HIGHLAND PARK, ILLS.

House Open for Inspection Monday.

T. W. PHILPOTT, Auctioneer.

MAKE POULTRY PAY.

In order to succeed in the poultry business as well as in anything else, it is necessary to start right. The first essential is poultry (chicks) itself. Unless there is successful incubation and successful brooding there can be no poultry. Chicks that die as soon as they kick out of the shell, or at the end of the second day, do so because they were not properly hatched. They were robbed of their vitality and their ability to live by incorrect methods in incubation. The

"OLD RELIABLE" INCUBATORS

make no such mistakes. They are so constructed that a new beginner is bound to succeed—just fill and light the lamp; the machine does the rest. Controls heat, moisture and ventilation perfectly.

Our Reliable Pliant Copper Leg Bands are the best, easiest applied and most durable bands made. Reduced to 12 for 200
50 for 50c, 100 for 80c, 500 for \$3.50, 1,000 for \$6.50., post or express free to any address.

We make a specialty of fine **Reliable Exhibition Coops**, lightest, neatest, easiest kept clean. Our 228-page Catalogue and poultry book tells all about it and our brooder, poultry-house plans, pure-bred poultry, poultry supplies, etc. Sent to any address on receipt of 10c in stamps or silver.

Will Highland Park Have Gas?

Within the past few days petitions have been presented to many of our citizens, asking them to sign frontage consents for the city council to pass an ordinance granting permission to D. S. McMullen and W. Irving Osborne, of Evanston, to install gas in Highland Park. The gentlemen asking for the ordinance are two of the three owners of the Waukegan Gas Light and Fuel Co., and it is understood that if the ordinance is granted, the Waukegan Gas Co. is behind it.

This is a move which promises one of the greatest benefits our city has yet received. There is no reason why the residents of Highland Park should not have the best and enjoy the same conveniences and luxuries as the residents of other cities. All our citizens have felt the need of gas, especially for fuel purposes, and with this want supplied no other city on the North Shore furnishes the attractions and advantages for a home equal to Highland Park.

A visit to Waukegan will show that these gentlemen have built a most modern, complete and desirable plant there, and one capable of supplying a city of 50,000 inhabitants; the works, with nine miles of pipes, were completed January 1st, 1899, and the citizens there have extended such support and encouragement that the company is this fall laying three miles more pipe and preparing itself to meet at once the wants of the people. The quality of gas furnished is the best, and the price charged there very reasonable, being \$1.25 per thousand feet, with a discount of 10 cents per thousand for illumination and 25 cents per thousand for fuel. A comparison of prices shows this to be as low as that in our large cities, and much lower than in cities of Waukegan's size.

We are assured that if proper encouragement is extended, Highland Park will have gas and have it promptly; that the best of service will be furnished at a price much less than is given to citizens of cities in Illinois of less than 10,000 inhabitants, and we therefore hope the frontage consents will be freely given, and that the Mayor and Common Council will then grant an ordinance containing conditions and terms for the full protection of the city and all residents.
